

Radishes

RD14-100 - Cherriette Radish Seeds

20 days. *Raphanus sativus*. (F1) Cherriette Radish. This early maturing plant produces high yields of 1 ½ to 2" diameter bright cherry red radishes. It is crisp with a sweet/hot taste. Perfect for salads and garnishes. Very easy to grow. Stores well. Replant every two weeks for a continuous crop. It was developed to produce in higher temperatures, so it holds better for harvesting into summer. Suitable for container gardening. Excellent choice for home gardens, market growers, and open field production.
