

Pink Flesh Watermelons

[WM76-20 - California Sweet Bush Watermelon Seeds](#)

2019 All-America Selections Winner!

90 days. Citrullus lanatus. (F1) California Sweet Bush Watermelon. This compact bush plant produces good yields of 10 to 12 lb round watermelons with dark green mottled stripes. It has very sweet and delicious crisp pink flesh. Great for fruit salads and picnics. Suitable for small gardens and containers as the plant only spreads from 14 to 18". Good foliage protection from the sun and resist sunburn. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: PM.

[WM54-20 - Charleston Grey No 133 Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces a very flavorful deep pink flesh watermelon. The watermelon is very sweet and averages 30 lbs. Exactly like the Charleston Grey, but with more resistance to Fusarium Wilt for Southern regions. An excellent choice for home gardens and market growers. A variety from South Carolina, USA. Disease Resistant: A, FW.

[WM56-20 - Garrisonian Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces excellent yields of very flavorful bright rose flesh watermelon. It has light green skin with dark green rattlesnake markings. The watermelon is very sweet and averages 35 lbs. A popular melon is grown in the Southeast region. An excellent choice for home gardens and market growers. A variety from South Carolina, USA. Disease Resistant: A, FW.

[WM47-20 - Georgia Rattlesnake Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Georgia Rattlesnake Watermelon. The plant produces good yields of 40 lb watermelons. The watermelon is light green with darker stripes. The dark pink flesh is very sweet and crisp. One of the very best tasting watermelons ever! An heirloom variety from the USA.

[WM17-20 - Golden Midget Watermelon Seeds](#)

70 days. Citrullus lanatus. Open Pollinated. Golden Midget Watermelon. This early maturing plant produces good yields of small 3 lb golden yellow watermelon with salmon pink flesh. It is very sweet and flavorful. A cross between a New Hampshire Midget and Pumpkin Rind. The watermelon turns golden yellow when fully ripe. Perfect for picnics. This is a very early producing variety that was introduced in 1959. An excellent choice for home gardens and specialty market growers. A variety from the USA.

[WM74-5 - Harvest Moon Watermelons \(Seedless\)](#)

2013 All-America Selections Winner!

90 days. Citrullus lanatus. (F1) The plant produces high yields of 18 to 20 lb elongated round watermelons with dark green rind with freckles and splotches of bright yellow, similar to the Moon and Stars Watermelons. It has many advantages - it is seedless, ripens earlier, has higher yields, shorter vines, and tastes better! It has crisp pinkish-red red flesh. It is the first-ever hybrid, triploid seedless watermelon to ever win the All-America Selection Award! This is perfect for picnics. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Harvest Moon as a pollinator. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

WM14-20 - Moon & Stars Cherokee Watermelons

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of deep green 25 lb to 45 lb elongated watermelons with yellow dots. Some dots are large and look like moons and some dots are small and look like stars. The watermelons are 24" long. The leaves are also spotted. The bright pink flesh is very sweet and flavorful. Drought Tolerant. Keep the plants well-watered to achieve uniform watermelons. An heirloom variety from the USA.

WM62-20 - Moon & Stars Red Flesh Watermelons

105 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 40 lb deep green watermelon with yellow dots. Some dots are large, look like moons, and some dots are small, and looks like stars. The red flesh is very sweet and flavorful. An excellent choice for home gardens. An heirloom variety from the USA.

WM10-20 - Moon & Stars Van Doren Watermelon Seeds

90 days. Citrullus lanatus. Open Pollinated. Moon & Stars Van Doren Watermelon. The plant produces good yields of deep green watermelon with yellow dots. Some dots are large and look like moons and some dots are small and look like stars. The leaves are also spotted. The pink flesh is very sweet and flavorful. An excellent choice for home gardens. This 1930 heirloom variety is from Merle Van Doren's farm near Macon, Missouri, USA. It had been originally brought from Tennessee, USA.

WM59-20 - Sweet Princess Watermelons

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 30 lb deep pink flesh watermelons. It has a juicy sweet taste. It has a yellow-green rind with a medium-green stripe. This variety has a thin tough rind making it a good shipper variety. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: A, FW.

WM86-20 - Willhite's Sweetheart Watermelons

85 days. Citrullus lanatus. (F1) The plant produces good yields of beautiful 22 to 24 lb blocky oblong watermelons with light green rind and dark green stripes. It has firm dark pink flesh. Great for fruit salads and picnics. Great for fruit salads and picnics. Good foliage protection from the sun and resist sunburn. Always a great seller at Farmer's Markets and Fruit Stands! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.
