

Greens

[KL5-750 - Dwarf Blue Curled Scotch Kale](#)

56 days. Brassica oleracea. Open Pollinated. This early variety produces flavorful green leaves. Great in salads, sandwiches, and soups. Also great steamed, boiled, baked, or stir-fried. Great freezing variety too! This variety withstands colder weather better than other varieties. It is one of the best frost-resistant kales on the market. Cold Resistant. An excellent choice for home gardens. An heirloom variety dating back to 1863. United States Department of Agriculture, NSL 80302.

[ED3-750 - Green Curled Ruffec Endive Seeds](#)

90 days. Cichorium endivia. Open Pollinated. Green Curled Ruffec Endive. The plant produces good yields of dark green curly endive leaves with creamy white leaves in the center. Perfect fresh, boiled, steamed, and garnishes. Also known as Early Green Curled Endive, Giant Fringed Oyster Endive, Ruffec Endive, Green Curled Ruffec Endive, Rubble Endive, and Fine Green Curled Endive. Resistant to cold wet weather. Cold Tolerant. High Humidity Tolerant. Excellent choice for home gardens. A pre-1865 heirloom variety. United States Department of Agriculture, NSL 6385.

[KL3-750 - Premier Kale](#)

55 days. Brassica oleracea. Open Pollinated. This early variety produces heavy crops of deep green kale leaves. Very flavorful. Used fresh in salads and on sandwiches or cooked. This variety stands 3 to 4 weeks longer than other varieties. Provides higher yields when seeded in the fall for spring harvest. Most gardeners will be able to overwinter plants started in the fall. Spring-started plants will get very large. Extremely high in antioxidants and beta carotene. Also known as Early Hanover Kale. It is a slow bolting variety that is best suited to cooler climates. Great variety for wildlife forage, preferred forage for deer. An excellent choice for home gardens and market growers. United States Department of Agriculture, G 30729.

[KL2-750 - Red Russian Kale Seeds](#)

50 days. Brassica napus. Open Pollinated. Red Russian Kale. This early variety produces excellent yields of flavorful red and blue-green kale leaves with pretty purple-red veins and stems. Very flavorful and tender. Perfect steamed, boiled, baked, soups, or stirfry. Also a good freezing variety. Highly nutritional with powerful antioxidants. Very winter hardy withstands colder weather, tolerates cold temperatures to -10 F. Cold Tolerant. It will continuously produce greens throughout the season: spring, summer, fall, and winter. Also known as Buda Kale and Ragged Jack Kale. Suitable for hydroponics gardening. An excellent choice for home gardens, market growers, and open field production. A pre-1885 heirloom from Russia. United States Department of Agriculture, AMES 26645.
