## [CU87-20 - Armenian Striped Cucumber Seeds](#)

65 days. Cucumis melo. Open Pollinated. Armenian Striped Cucumber. The plant produces good yields of 18 to 36" long pale green striped cucumbers. Cucumbers are very delicious, mild, bitter free, and crisp. A great slicer, and perfect for salads and gourmet dishes. Best when harvested when 8 to 12" long. Grow on a trellis for straight cucumbers. Also known as Painted Serpente Cucumbers. A great selling item at farmers' markets. Excellent choice for home gardens and market growers. An heirloom from Armenia.

## [CU46-20 - Ashley Cucumber Seeds](#)

65 days. Cucumis sativus. Open Pollinated. Ashley Cucumber. The plant produces excellent yields of 6 to 8" long light green cucumbers. Excellent slicing cucumber for salads. Grows well in hot and humid regions in the South. One of the most profitable cucumbers you can grow. Heat Tolerant. Excellent choice for home gardens and market growers. An heirloom variety was developed in 1956 by the Clemson Agricultural Experimental Station, Charleston, South Carolina, USA. United States Department of Agriculture, AMES 4833. Disease Resistant: DM.

## [CU61-20 - Boston Pickling Improved Cucumber Seeds](#)

55 days. Cucumis sativus. Open Pollinated. Boston Pickling Improved Cucumber. The plant produces heavy yields of small 3 to 7" long cucumbers. Perfect for making pickles, but also good in salads. They are very crisp and good quality. Best when harvested at 2 to 6" long. An 1880 heirloom variety. An excellent choice for home gardens and market growers. United States Department of Agriculture, NSL 5716. Disease Resistant: CMV.

### **CU130-20 - Cucamelon Cucumber Seeds**

67 days. *Melothria scabra*. Open Pollinated. Cucamelon Cucumber. The plant produces good yields of small 1" long pale green cucumbers with dark green stripes. They are very delicious and have a unique flavor. They look like miniature watermelons but have a cucumber taste with a slight citrus flavor. It has been used for centuries by the Aztecs and other native peoples. Excellent for salads, sandwiches, spreads, pickling, or snacks. Kids love them. You should pick mature cucumbers to encourage longer yields. Similar to the Mexican Sour Gherkin and known as the Mouse Melon. The plant is most productive in hot weather or a greenhouse setting. Heat Tolerant. Drought Tolerant. High Humidity Tolerant. It would be best if you used a trellis or a pea fence. Suitable for hanging baskets. An excellent choice for home gardens, Farmer's Markets, greenhouses, market growers, and open field production. An heirloom variety from Mexico and Central America. Disease Resistant.

### **CU100-20 - Double Yield Cucumbers**

50 days. *Cucumis sativus*. Open Pollinated. This early maturing plant produces high yields of 5 to 6" long dark green cucumbers. This is a very productive variety - for every pickle that is cut off, two or three more are grown, so keep on picking! Best when picked at 4 to 5" long. Does well in most parts of the country. Excellent choice for home gardens. An heirloom variety was developed in 1924 by Joseph Harris & Company of Coldwater in New York, USA. United States Department of Agriculture, PI 414157.

### **CU109-20 - Early Fortune Cucumber Seeds**

55 days. *Cucumis sativus*. Open Pollinated. Early Fortune Cucumber. The plant produces good yields of 7 to 8" long dark green cucumbers. Very delicious and a perfect slicing cucumber for salads and pickling. Also known as Special Dark Green Cucumber. Does well in most parts of the United States. An excellent choice for home gardens. A 1906 heirloom variety from George Starr of Royal Oak, Michigan, USA. United States Department of Agriculture, NSL 5726.

### **CU44-20 - Improved Long Green Cucumbers**

65 days. *Cucumis sativus*. Open Pollinated. The plant produces heavy yields of 10 to 14" long glossy dark green cucumbers. A popular variety is used for slicing and pickling. It has the old-fashioned flavor. They are solid and crisp, perfect for making pickles. Best when harvested at 5 to 6" long for pickles. It is also a superior slicing cucumber! Grows best if grown on trellis or stakes. Also known as London Long Cucumber. An excellent choice for home gardens. An 1842 heirloom variety. United States Department of Agriculture, NSL 28181.

### [CA67-50 - Kiwano Melon Seeds](#)

120 days. Cucumis metuliferus. Open Pollinated. Kiwano Melon. The plant produces good yields of thorny oval bright orange fruits that are filled with greenish-gold gel. The plants have hairy leaves and stems and produce 6 to 9" long melons. It has the tart flavor of pomegranate and citrus, a combination of banana, melon, and cucumber flavors! They are very healthy too, full of vitamins A, B, and C as well as essential minerals like calcium, potassium, magnesium, and phosphorus. Also rich in antioxidants, which is always a plus! Grown for garnishes and are excellent decorative fruit. A gourmet variety sold at specialty markets. Vines are excellent climbers and are best when grown on a trellis. Grows best in hot climates. Also known as African Horned Melons and Jelly Melons. Resistant to Melon Aphids and Greenhouse White Flies. Drought Tolerant. An heirloom variety originated from the Kalahari desert in Africa. An excellent choice for home gardens and market growers. United States Department of Agriculture, AMES 19146. Disease Resistant: N, PM.

### [CU11-20 - Lemon Cucumber Seeds](#)

65 days. Cucumis sativus. Open Pollinated. Lemon Cucumber. The plant produces heavy yields of 2 ½ to 4" round lemon shaped cucumbers. They are tender and sweet, are never bitter, and are great for salads and pickling. Great for large containers! Does well in cool weather. Cold Tolerant. Drought Tolerant. Great specialty market salad item. Excellent choice for home gardens and specialty market growers. An 1894 heirloom variety from Australia. United States Department of Agriculture, NSL 106620.

### [CU12-20 - Marketer Cucumber Seeds](#)

#### **1943 All-America Selections Winner!**

55 days. Cucumis sativus. Open Pollinated. Marketer Cucumber. The plant produces high yields of 8 to 9" long smooth dark green cucumbers. Great for slicing and salads. Perfect for pickles when picked small. Does well in hot and humid regions and in the Southern states. Heat Resistant. Excellent choice for home gardens and market growers. A 1942 heirloom variety from New Haven, Connecticut, USA. United States Department of Agriculture, NSL 5739.

### [CU118-10 - Poona Kheera Cucumber Seeds](#)

50 days. Cucumis sativus. Open Pollinated. Poona Kheera Cucumber. The plant produces good high yields of 4 to 5" long cucumbers. The best thing about Poona Keera is that it will never, ever get bitter. This cucumber looks like a large russet potato with a russet brown color. It is very tender, crisp, juicy, and delicious. It turns from white, to golden yellow, then to russet brown. It may be eaten at any stage, skin and all, but the flavor is best when the skin is just turning brown. Used in stirfries, long marinating dishes, pickles, and chutneys. Very strong vines allow for huge yields. Trellising makes it easier to harvest. It does extremely well in hot climates in the Western part of the country where it is difficult to grow cucumbers. This is an excellent hydroponic variety. Also known as Puneri Cucumber. An excellent choice for home gardens. An heirloom variety from Poona, India.

### [CU88-20 - Rhinish Pickle Cucumbers](#)

55 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 4 to 6" long cucumbers. The cucumbers are crisp and very tasty. Best when harvested at 4" long for pickling. Also good for salads and slicing. Also known as Vorgebirgstrauben. An excellent choice for home gardens. An heirloom variety from Germany.

### [CU128-10 - Richmond Green Apple Cucumbers](#)

70 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 3" round lime green cucumbers with white flesh. These cucumbers are very mild, sweet, juicy, and crunchy. If you like Lemon cucumbers, you will also enjoy these slightly larger lime green cucumbers. Great for gourmet dishes. Excellent choice for home gardens and market growers. An Australian heirloom variety. United States Department of Agriculture, PI 289698.

### **CU110-20 - Snow's Fancy Pickling Cucumbers**

55 days. Cucumis sativus. Open Pollinated. This early maturing plant produces good yields of 5" long dark green cucumbers. It is firm, crisp, and tender. The ideal pickler! This variety was introduced in 1905 by Vaughan's Seed House of Chicago. It was selected by J. C. Snow of the famous Snow Pickle Farm located in Rockford, Illinois. At that time, it fit the requirements for small pickling manufacturing. Excellent choice for home gardens and market growers. An heirloom variety from Illinois, USA.

### **CU34-20 - Straight Eight Cucumbers**

#### **1935 All-America Selections Winner!**

63 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8" long dark green cucumbers. One of the best-slicing cucumbers on the market. It is an extremely dependable producing crop. If you had bad luck with other cucumber varieties last season, then this one this year. You will be giving them away to your family, neighbors, and friends there are so many! Grows best if grown on trellis or stakes. Excellent choice for home gardens and market growers. A 1938 heirloom variety named for its perfectly straight 8" long cucumber. United States Department of Agriculture, NSL 5764. Disease Resistant: CMV.

### **CU25-10 - Suyo Long Cucumber Seeds**

65 days. Cucumis sativus. Open Pollinated. Suyo Long Cucumber. The plant produces excellent yields of thin 12 to 18" long cucumbers. It is delicious, tender, crispy, burpless, and non bitter. It can be picked at any stage, from very young to fully mature. Excellent for salads and bread and butter pickles. Grow it on a trellis for straight cucumbers. This variety grows well in hot weather. An excellent choice for home gardens. An heirloom variety from China.

### **CU115-20 - Telegraph Improved Cucumber Seeds**

62 days. Cucumis sativus. Open Pollinated. Telegraph Improved Cucumber. The plant produces excellent yields of 15 to 18" long dark green cucumbers. These are just like the ones found at the grocery store but much fresher because they come straight from your garden. These long cucumbers stay crisp and fresher longer than other varieties. They are burpless, mild-flavored, and never bitter. Also known as English Telegraph Cucumber. Good for summer or winter production. This is an excellent greenhouse variety. The plants will grow up to 8 feet in a greenhouse, are easily trellised, and set fruit without pollination. Does well in the garden outdoors too. An excellent choice for home gardens, greenhouses, and market growers. An English heirloom variety dating back to 1897.

### **CU38-20 - Tendergreen Burpless Cucumbers**

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6 to 8" long medium green cucumbers. It is crispy, tender, burpless, bitter-free, and acid-free. It has thin skin and doesn't need any peeling. Great for salads and for pickling when cucumbers are small. Does well in high soil moisture and also cold soil. Best when harvested when 3 to 6" long. An excellent choice for home gardens and market growers. An heirloom dating back to the 1930s. United States Department of Agriculture, NSL 106653. Disease Resistant: CMV, DM, PM.

### **CU33-20 - West Indian Gherkin Cucumber Seeds**

65 days. Cucumis anguria. Open Pollinated. West Indian Gherkin Cucumber. The plant produces heavy yields of 1 to 2" oval cucumbers. They have been used for centuries to make small pickles and relishes. It can be cooked and added to soups. It was grown by Thomas Jefferson at Monticello vegetable garden between 1812 and 1824. They do great in hot and humid regions. Also known as Burr Gherkin Cucumber or Burr Cucumber. It is believed that it originated in Africa and then was taken to the West Indies through the slave trade. The heirloom was introduced into the United States in 1792 via Jamaica, by Minton Collins of Richmond, Virginia, USA. An excellent choice for home gardens. United States Department of Agriculture, NSL 5769.

### CU58-20 - White Wonder Cucumbers

60 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 6 to 8" long, lovely ivory-skinned cucumbers. They are exceptionally crisp and very delicious without the bitter taste. Great for salads, pickles, or gourmet dishes. It looks great in salads to add extra color to gourmet dishes. The tender white skins are so thin that they won't even need peeling. Great for making chips, spears, and whole pickles. Suitable for greenhouses too! Impress your neighbors by growing some white cucumbers! Also known as Albino Cucumber, Ivory King Cucumber, Jack Frost Cucumber, Landreth's White Slicing Cucumber, Long White Cucumber, and White Albino Cucumber. Does well in hot weather. An excellent choice for home gardens, greenhouses, and specialty market growers. An 1893 heirloom variety from New York, USA. United States Department of Agriculture, NSL 5773.
