

# Lettuce

## [LC45-750 - All Year Round Lettuce](#)

65 days. *Lactuca sativa*. Open Pollinated. The plant produces good yields of medium green butterhead lettuce. It is crisp and flavorful. This variety can be sown in most locations from March through August for a nearly year-round harvest. Slow to bolt. Does well in hot and cold weather! The very reliable plant does well even in dry weather. Cold Tolerant. Heat Tolerant. Drought Tolerant. Suitable for greenhouse production. An excellent choice for home gardens, greenhouses, market growers, and open field production. A pre-1870s heirloom variety. United States Department of Agriculture, PI 536694.

## [LC5-750 - Buttercrunch Lettuce Seeds](#)

### [1963 All-America Selections Winner!](#)

65 days. *Lactuca sativa*. Open Pollinated. Buttercrunch Lettuce. The plant produces high yields of dark green butterhead lettuce. It has a mild buttery flavored taste with no bitterness. The broad green leaves are delicious, but the best part is the heart of loosely folded leaves and thick, crisp, tender ribs. Great for salads and garnishes. Heat Tolerant. Slow to bolt. Suitable for greenhouse production. An excellent choice for home gardens, greenhouses, and market growers. Developed by George Raleigh of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 536804.

## [LC28-750 - Grand Rapids Lettuce](#)

45 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces high yields of large bright green leaf-type lettuce. Leaves are frilled, crinkled, and crisp. Perfect for sandwiches, salads, and garnishes. This is a quick-growing variety. Heat Tolerant. Slow to bolt. Suitable for greenhouse production. Excellent choice for home gardens, greenhouses, market growers, and open field production, and hydroponics gardening. An heirloom variety dating back to 1898. United States Department of Agriculture, PI 536719. Disease Resistant: TB, V.

## [LC62-750 - Slobolt Lettuce](#)

48 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces excellent yields of very flavorful lettuce. The outer leaves may be picked off as it grows. It has a delightful crispness and mild flavor and is never bitter. Grows even in hot weather! Heat-Tolerant. Slow to bolt. Suitable for greenhouse production and outdoor planting. Excellent choice for home gardens, greenhouses, market growers, and open field production. An heirloom dating back to 1946. United States Department of Agriculture, PI 536764.

## [LC13-750 - Tom Thumb Lettuce](#)

65 days. *Lactuca sativa*. Open Pollinated. This small compact plant produces excellent yields of small butterhead lettuce. Each head is a perfect size, 3 to 4" across, for a crispy and tasty salad. Perfect for salads and garnishes. It is excellent summer lettuce as it tolerates high temperatures at maturity and resists bolting better than larger varieties. Heat Tolerant. Perfect for container gardening, hanging baskets, or small gardens where space is very limited! Suitable for greenhouse. An excellent choice for home gardens and specialty market growers. An 1850 heirloom from England. United States Department of Agriculture, PI 536767.

## [LC44-750 - Waldman's Green Lettuce](#)

50 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces excellent yields of light green frilled leaf lettuce. It tolerates cold weather well. Slow to bolt. Suitable for hydroponics gardening. Waldman's Green is highly productive lettuce that is the standard for commercial growing. Excellent choice for home gardens, greenhouses, market growers, and open field production. United States Department of Agriculture, PI 536769. Disease Resistant: TB.
