

# Watermelons

## [WM16-20 - Citron Red Watermelons](#)

100 days. Citrullus lanatus. Open Pollinated. The plant produces high yields of small dark green watermelons. This is not your typical watermelon. It has white flesh with red seeds. The flesh is tasteless and is used to make preserves and sweetmeats that are added to fruitcakes, cookies, and puddings. It got its name from the unique appearance of its white flesh with bright red seeds! The best ones can be stored for up to a year.

Drought-Tolerant. A variety that was widely grown in the 1930s and 1940s. An excellent choice for home gardens.

## [WM45-20 - Crimson Sweet Yellow Watermelon Seeds](#)

80 days. Citrullus lanatus. Open Pollinated. Crimson Sweet Yellow Watermelon. This early plant produces good yields of 10 lb striped watermelons. The bright yellow flesh is very favorable. Perfect addition to any gourmet fruit salad. Suitable for market growers and home gardens. An heirloom variety from the USA.

## [WM8-20 - Desert King Watermelon Seeds](#)

85 days. Citrullus lanatus. Open Pollinated. Desert King Watermelon. The plant produces good yields of watermelons. It has deep yellow flesh that is very delicious. One of the best drought tolerant watermelon varieties on the market. They hold on the vine a month or so after ripening and will not sunburn. Every watermelon lover should try this variety. Drought Tolerant. Excellent choice for home gardens and specialty market growers. United States Department of Agriculture, NSL 29603.

## [WM87-20 - Golden Honey Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 30 lb watermelons with dark green rind and light green stripes. The beautiful bright yellow flesh is very sweet and delicious. Perfect addition to any gourmet fruit salad. Suitable for home gardens and market growers. A variety from the USA.

## [WM17-20 - Golden Midget Watermelons](#)

70 days. Citrullus lanatus. Open Pollinated. This early maturing plant produces good yields of small 3 lb golden yellow watermelon with salmon-pink flesh. It is very sweet and flavorful. A cross between a New Hampshire Midget and Pumpkin Rind. The watermelon turns golden yellow when fully ripe. Perfect for picnics! This is a very early producing variety that was introduced in 1959. An excellent choice for home gardens and specialty market growers. A variety from the USA.

## [WM74-5 - Harvest Moon Watermelons \(Seedless\)](#)

### **2013 All-America Selections Winner!**

90 days. Citrullus lanatus. (F1) The plant produces high yields of 18 to 20 lb elongated round watermelons with dark green rind with freckles and splotches of bright yellow, similar to the Moon and Stars Watermelons. It has many advantages - it is seedless, ripens earlier, has higher yields, shorter vines, and tastes better! It has crisp pinkish-red red flesh. It is the first-ever hybrid, triploid seedless watermelon to ever win the All-America Selection Award! This is perfect for picnics. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Harvest Moon as a pollinator. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production.

**Seedless Watermelons Require Special Attention.** The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

### [WM32-20 - Mountain Sweet Yellow Watermelon Seeds](#)

100 days. Citrullus lanatus. Open Pollinated. Mountain Sweet Yellow Watermelon. The plant produces good yields of large 35 lb dark green watermelons with light green markings. The dark yellow flesh is very sweet. The family will love this variety! Try growing yellow, red, pink, red, and white watermelons for a colorful gourmet fruit salad. An excellent choice for home gardens and Farmer's Markets. A variety from the USA.

### [WM68-5 - Orange Crisp Watermelon Seeds \(Seedless\)](#)

92 days. Citrullus lanatus. (F1) Orange Crisp Watermelon. The plant produces good yields of 14 to 18 lb watermelons with light green rind and contrasting dark green stripes. The plant produces round to oval watermelons. It has very sweet and firm vibrant orange flesh. This is perfect for making a gourmet fruit salad. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Orange Crisp as a pollinator. It is an excellent shipping variety with a good shelf life. Good shipper as it holds up well for long-distance shipping. Heat Tolerant. High Humidity Tolerant. Good foliage protection from the sun and resisting sunburn. It is also resistant to a hollow heart. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: FW, WMV.

**Seedless Watermelons Require Special Attention.** The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

### [WM41-10 - Orangeglo Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Orangeglo Watermelon. The plant produces heavy yields of large 30 lb watermelons. This is one of the best orange flesh watermelons on the market. It has solid deep orange flesh that is very crisp, very sweet, and very favorable. Vines are vigorous and produce heavy yields of watermelons that have light green and dark green stripes. An excellent choice for home gardeners and market growers. Try growing pink, red, white, and yellow watermelons to make a great-tasting watermelon salad.

### [WM66-5 - Red Rock Watermelon Seeds \(Seedless\)](#)

85 days. Citrullus lanatus. (F1) Red Rock Watermelon. The plant produces high yields of 15 to 17 lb dark green striped watermelons. It has very sweet bright red flesh with high Brix content. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Red Rock as a pollinator. It is an excellent shipping variety with a good shelf life. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: A, FW.

**Seedless Watermelons Require Special Attention.** The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

### [WM44-20 - Tendergold Watermelon Seeds](#)

80 days. Citrullus lanatus. Open Pollinated. Tendergold Watermelon. The plant produces good yields of medium size 28 lb watermelons. This is one of the best yellow flesh watermelons on the market. It has solid flesh that is very crisp, very sweet, and very flavorful. The yellow flesh turns more orange as it ripens and the taste improves with time. Keeps well and will last 7 - 20 days longer after ripening. Grow pink, red, white, and yellow watermelons to make a great tasting salad. An excellent choice for home gardeners and market growers. Disease Resistant: A, FW

### [WM19-20 - Tendersweet Watermelon Seeds](#)

85 days. Citrullus lanatus. Open Pollinated. Tendersweet Watermelon. The plant produces good yields of 35 to 40 lb watermelons. It has orange flesh which is very sweet and delicious. The family will love this variety. An excellent choice for home gardens and specialty market growers. United States Department of Agriculture, NSL 5330.

### [WM71-5 - Willhite's Yellow Gem Watermelons \(Seedless\)](#)

100 days. Citrullus lanatus. (F1) The plant produces good yields of 20 to 22 lb round watermelons with dark black rind. It has very delicious lemon yellow flesh and is very sweet with a Brix of 13. This is perfect for picnics and fruit salads. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Willhite's Yellow Gem as a pollinator. Heat Tolerant. Perfect for hot summer days. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: FW.

### [WM20-10 - Yellow Baby Doll Watermelons](#)

68 days. Citrullus lanatus. (F1) This early maturing semi-compact plant produces good yields of 7 lb icebox-type watermelons. It has very sweet bright yellow flesh. The family will love this variety! One of the earliest yellow varieties on the market that is suitable for small gardens. Try growing yellow, red, pink, red, and white watermelons for a beautiful gourmet fruit salad. Always a great seller at Farmer's Markets! An excellent choice for home gardens and specialty market growers.

**Seedless Watermelons Require Special Attention.** The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

### [WM75-20 - Yellow Petite Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 5 to 7 lb round watermelons with light green rind and narrow dark green stripes. It has very sweet and delicious bright yellow flesh. This icebox-type watermelon is perfect for refrigerators! Great for fruit salads and picnics. Suitable for small gardens. Good foliage protection from the sun and resisting sunburn. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. An heirloom variety from the USA.
