days. Cucumis sativus. (F1) Brickyard Cucumber. This early maturing plant produces high yields of 8" long smooth dark green cucumbers. It has a strong vigorous vines. One of the most disease-resistant varieties. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

GN1-200 - Buckwheat

85 days. Fagopyrum esculntum. Open Pollinated. The plant produces beautiful small white fragrant flowers that attract bees. Very attractive plant for herb and flower gardens. Well known as a grain, cover crop, and bee plant, but not so well known is its medicinal value. The infusion made from the flowering tops is high in rutin which combats arteriosclerosis (hardening of the arteries and veins). For grain harvest, sow 3 months before fall frost. If the seed is grown for cover crop planting, best when grown between May and July.

Seeding Rate: 60 lbs per acre

HP432-20 - Buena Mulata Hot Peppers

75

days. Capsicum annum. Open Pollinated. The plant produces good yields of 3 ¼" long by ¾" wide Cayenne peppers. Peppers are hot and turn from green, to purple, to orange when mature. The plant has green stems, green leaves, and white flowers. This ornamental plant is suitable for containers and borders. An heirloom traces back to Horace Pippin (1888-1946), an African-American folk artist. A rare variety from Nicaragua.

BR60-25 - Burgundy Sprouting Broccoli Seeds

37 days. Brassica oleracea. (F1) Burgundy Sprouting Broccoli. This early maturing plant produces high yields of very flavorful heads of beautiful purple buds and purple-green stems. It has abundant, concentrated side-shoot yields. Excellent color choice for garnishes or using fresh in salads. The tender shoots and heads add wonderful color and flavor to veggie trays and are also great roasted, steamed, or grilled. Easy to harvest because of concentrated side-shoot production. Plant late winter/early spring. An excellent choice for home gardens. A variety from the USA.

BR69-100 - Burney Broccoli Seeds

days. Brassica oleracea. (F1) Burney Broccoli. The plant produces good yields of mid-green broccoli. It is very flavorful. Resists purpling under stress. Suitable for spring and summer planting. Consistent in trials all over the eastern US including Georgia and other high-temperature areas. Heat Tolerant. An excellent choice for home gardens, market growers, and commercial growers. A variety from the USA.

CU133-20 - Bush Hog Cucumbers

85 days. Cucumis sativus. Open Pollinated. This small compact bush plant produces high yields of 2 to 3" long cucumbers. The flesh is crisp and delicious. It can be used for pickling or sliced in salads. A great gourmet cucumber. Easy to grow and maintain. Suitable for small gardens, containers, and patios. An excellent choice for home gardens. A variety from the USA.

CU134-20 - Bushy Cucumber Seeds

48

days. Cucumis sativus. (F1) Bushy Cucumber. This early maturing compact plant produces high yields of very flavorful 4 to 5" long green cucumbers. This is one of the better quality varieties for making crisp whole dill pickles. If you make your own pickles, you have to try this variety! It is also great in salads. This variety will take only 2 or 3 square feet as vines are only 5 ft long. Suitable for small gardens. A variety was brought into the USA from Russia in the early 1990s.

HP2347-10 - Cajamarca Pepper Seeds

100+ days. Capsicum chinense. Open Pollinated. Cajamarca Pepper. The plant produces good yields of 3 ¼" long by ¼" wide elongated Habanero peppers. Peppers are hot, medium thick flesh, and turn from pale yellow, to purple, to orange, then to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning spice powder. This is a rare variety from South America.

HP2498-10 - Calabrian Diavolicchio Pepper Seeds

100+ days. Capsicum chinense. Open Pollinated. Calabrian Diavolicchio Pepper. The plant produces good yields of 2 ¼" long by 1 ¼" wide peppers. Peppers are hot, medium thick flesh, grows upright, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning spice powder. This is a rare variety from Italy.

HP2499-10 - Calabrian Mazetti Pepper Seeds

75 days. Capsicum chinense. Open Pollinated. Calabrian Mazetti Pepper. The plant produces good yields of 2" long by 1 ¼" wide peppers. Peppers are hot, thick flesh, grow in clusters upright, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, pickling, and seasoning spice powder. This is a rare variety from Italy.

HP2500-10 - Calabrian Sigaretta Ristra Pepper Seeds

days. Capsicum chinense. Open Pollinated. Calabrian Sigaretta Ristra Pepper. The plant produces good yields of 5" long by ¾" wide hot peppers. Peppers are hot, medium thick flesh, grows upright, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, pickling, and seasoning spice powder. This is a rare variety from Italy.

TR36-20 - California Redwood Bonsai Tree Seeds

Sequoia sempervirens. Open Pollinated. California Redwood Bonsai Tree. This Bonsai tree produces small dark green evergreen needles. The tree has a reddish brown bark. This is a long lived tree in the wild, often living 1,000 years and with some specimens living 2,200 years old. Also known as Coastal Redwood Tree. A variety is native to the West Coast of the USA.

WM76-20 - California Sweet Bush Watermelon Seeds

2019 All-America Selections Winner!

90 days. Citrullus lanatus. (F1) California Sweet Bush Watermelon. This compact bush plant produces good yields of 10 to 12 lb round watermelons with dark green mottled stripes. It has very sweet and delicious crisp pink flesh. Great for fruit salads and picnics. Suitable for small gardens and containers as the plant only spreads from 14 to 18". Good foliage protection from the sun and resist sunburn. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: PM.

HP2501-10 - Candlelight Mutant Pepper Seeds

85 days. Capsicum annum. Open Pollinated. Candlelight Mutant Pepper. The plant produces good yields of 2" long by 3/4" wide hot peppers. Peppers are mildly hot, have medium thin flesh, grow upright in clusters, and turn from light yellowish green, to orange, to bright red when mature. The plant has green stems, green spindly leaves, and white flowers. A beautiful ornamental plant for indoor pots. A rare variety from the USA.

BN148-50 - Cannellini Bean Seeds

85 days. Phaseolus vulgaris. Open Pollinated. Cannellini Bean. This bush plant produces high yields of 8" long beans. It has a delicious smooth meaty texture and nutty flavor. It is commonly used as a dry bean. This high quality white bean is great for baking and making minestrone soup, stews, salads, and gourmet dishes. Also known as Fagioli Beans or White Kidney Beans. It does well in cooler weather. Excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. An heirloom variety from Italy that was brought to America in the early 1800s. Disease Resistant: Bean Common Mosaic Virus, Curly Top Virus.

BS21-50 - Capitola Brussels Sprouts Seeds

135 days. Brassica oleracea. (F1) Capitola Brussels Sprouts. The plant produces heavy yields of light green Brussels Sprouts. This high-quality variety has heads average 1 to 1 ½" in diameter. It is known for its uniform high-quality sprouts. Perfect for roasted, grilled, or steamed. It can be harvested either by hand or machine. Easy to harvest. Resists bolting. It is adaptable to all regions. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: FY.

HP2502-10 - Carolina Reaper Golden Pepper Seeds

110+ days. Capsicum chinense. Open Pollinated. Carolina Reaper Golden Pepper. The plant produces good yields of 3" long by 1 ½" wide wrinkled Habanero peppers with a pointed tip. Peppers are extremely hot, have medium thin flesh, and turn from green to golden orange when mature. The plant has dark green leaves, green stems, and creamy yellow flowers. It has a fruity and sweet flavor, but the intense heat level kicks in shortly after eating the pepper. It is not yet stable and may throw off pods of differing colors and shapes. Be very, very careful handling this extremely hot pepper. Excellent for beef jerky, jerk sauces, pickling, and making salsa, hot sauce, and seasoning spice powder. Try growing all the Carolina Reapers: Chocolate, Mustard, Orange, Peach, Red, and Yellow versions. Excellent choice for home gardens. A variety from North Carolina, USA. Scoville Heat Units: 2,200,000.

[HP2504-10 - Carolina Reaper Purple Peach Pepper Seeds](#)

110+ days. Capsicum chinense. Open Pollinated. Carolina Reaper Purple Peach Pepper. The plant produces good yields of 3" long by 1 ½" wide wrinkled Habanero peppers with a pointed tip. Peppers are extremely hot, have medium thin flesh, and turn from green to light peach with purple striations when mature. The plant has dark green leaves, green stems, and creamy yellow flowers. It has a fruity and sweet flavor, but the intense heat level kicks in shortly after eating the pepper. It is not yet stable and may throw off pods of differing colors and shapes. Be very, very careful handling this extremely hot pepper. Excellent for beef jerky, jerk sauces, pickling, and making salsa, hot sauce, and seasoning spice powder. Try growing all the Carolina Reapers: Chocolate, Mustard, Orange, Peach, Red, and Yellow versions. Excellent choice for home gardens. A variety from North Carolina, USA. Scoville Heat Units: 2,200,000.

[HP2503-10 - Carolina Reaper Purple Pepper Seeds](#)

110+ days. Capsicum chinense. Open Pollinated. Carolina Reaper Purple Pepper. The plant produces good yields of 3" long by 1 ½" wide wrinkled Habanero peppers with a pointed tip. Peppers are extremely hot, have medium thin flesh, and turn from green to purple when mature. The plant has dark green leaves, green stems, and creamy yellow flowers. It has a fruity and sweet flavor, but the intense heat level kicks in shortly after eating the pepper. It is not yet stable and may throw off pods of differing colors and shapes. Be very, very careful handling this extremely hot pepper. Excellent for beef jerky, jerk sauces, pickling, and making salsa, hot sauce, and seasoning spice powder. Try growing all the Carolina Reapers: Chocolate, Mustard, Orange, Peach, Red, and Yellow versions. Excellent choice for home gardens. A variety from North Carolina, USA. Scoville Heat Units: 2,200,000.

HP2505-10 - Carolina Reaper White Pepper Seeds

110+ days. Capsicum chinense. Open Pollinated. Carolina Reaper White Pepper. The plant produces good yields of 3" long by 1 ½" wide wrinkled Habanero peppers with a pointed tip. Peppers are extremely hot, have medium thin flesh, and turn from light green to white when mature. The plant has dark green leaves, green stems, and creamy yellow flowers. It has a fruity and sweet flavor, but the intense heat level kicks in shortly after eating the pepper. It is not yet stable and may throw off pods of differing colors and shapes. 75-90 days. *Solanum lycopersicum*. Open Pollinated. The plants produce excellent yields of a mixture of full-flavored tomatoes of all colors and sizes. They are very sweet, meaty, juicy, and flavorful. Perfect for sandwiches, salads, slicing, and gourmet dishes. The tomatoes come in red, pink, orange, and yellow. Excellent choice for home gardeners and chefs. A variety from the USA. Indeterminate.

[HP2355-10 - Cumari do Para Pepper Seeds](#)

90 days. Capsicum chinense. Open Pollinated. Cumari do Para Pepper. The plant produces good yields of ¾" long by ½" wide hot peppers. Peppers are very hot, have medium thick flesh, grow upright, and turn from green to golden yellow when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning spice powder. A very rare from Brazil.

[HP2217-10 - Cumari Hot Peppers](#)

100 days. Capsicum chinense. Open Pollinated. The bush-type plant produces high yields of 1 ¼" by ¾" wide hot peppers. Peppers are hot and turn from light green to yellow when they mature. They are sweet and have a punch of heat as well. The plant has green stems, green leaves, and white flowers. Good pickling pepper. Also known as Cumari Verdadeira Yellow Pepper. An excellent choice for home gardens. A rare variety from Brazil. Scoville Units: 40,000.

[BS12-50 - Dagan Brussels Sprouts Seeds](#)

100 days. Brassica oleracea. (F1) Dagan Brussels Sprouts. The tall plant produces high yields of bright green Brussels Sprouts. The heads average 1 to 1 ½" in diameter. Perfect for roasted, grilled, or steamed. The sprouts are firm, smooth, and easy to pop off the stem. The leaves shed as the sprouts mature. The leaves shed at maturity leaving a nice, clean stalk. This is a very dependable early to midseason variety. Holds well in the field. It is adapted to a range of growing conditions and climates. Suitable for Northeast and Southeast main-season production. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA.

[PM64-10 - Dark Knight Pumpkin Seeds](#)

100 days. Cucurbita maxima. (F1) Dark Knight Pumpkin. This semi-bush type plant produces excellent yields of 10 lb very dark green (black) pumpkins. The orange flesh is great for making pumpkin pies. It is very sweet and delicious. Stores well. Try growing black pumpkins in your home pumpkin patch! It is an excellent choice for home gardens and Farmer's Markets. A variety from the USA. Disease Resistant: PM.

BN146-50 - Dark Red Kidney Bean Seeds

95 days. Phaseolus vulgaris. Open Pollinated. Dark Red Kidney Bean. This bush plant produces good yields of 6" long beans. It can be used as dry beans. Great for making baked beans, Texas chili, the famous New Orleans dish "Red Beans and Rice", and bean soups. Used in Mexican dishes. Excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA.

HP2511-10 - Death Naga Pepper Seeds

90+ days. Capsicum chinense. Open Pollinated. Death Naga Pepper. The plant produces good yields of 3" long by 1 1/2" wide elongated Habanero peppers. Peppers are extremely hot, have thin flesh, and turn from green to bright red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, pickling, and hot sauce. A rare variety from India.

HP2512-10 - Death Spiral Pepper Seeds

90+ days. Capsicum chinense. Open Pollinated. Death Spiral Pepper. The plant produces good yields of 2 1/4" long by 1 1/4" wide elongated Habanero peppers. Peppers are extremely hot, have thin flesh, and turn from green, to orange, to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, pickling, and hot sauce. It has patterns of spiral bumps going around the pod. This is a fairly new variety so it may throw off pods of differing colors and shapes. A rare variety from the United Kingdom.

HP2457-10 - Desperado Hot Peppers

70

days. Capsicum annum. (F1) This early maturing compact plant produces good yields of 7 1/2" long by 1 1/2" wide Anaheim hot peppers. Peppers are mildly hot, have thick flesh, and turn from glossy light green to red when they mature. The plant has green stems, green leaves, and white flowers. Good foliage provides good protection from sun-scald. Excellent drying, roasting, and cooking. Suitable for home gardens, market growers, and commercial growers. A variety from the USA. Scoville Heat Units: 500.

BR30-25 - Destiny Broccoli Seeds

74 days. Brassica oleracea. (F1) Destiny Broccoli. The compact plant produces excellent yields of rich blue-green dome-shaped broccoli. It is high in Vitamins A and C. Great for fresh use in salads, steamed, and stir-fries. It is more tolerant to heat and tolerates warmer temperatures. Heat Tolerant. An excellent choice for home gardens and market growers.

HP2356-10 - Diablo Rojo Pepper Seeds

120+ days. Capsicum chinense. Open Pollinated. Diablo Rojo Pepper. The plant produces high yields of 4" long by 1 ¼" wide elongated Habanero peppers. Peppers are extremely hot, have medium thick flesh, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning spice powder. A very rare variety developed in the USA.

BR51-100 - Diamante Broccoli Seeds

83 days. Brassica oleracea. (F1) Diamante Broccoli. The plant produces high yields of blue-green broccoli with dome-shaped heads. This variety grows on large plants. It prefers warm growing conditions and holds color well. Suitable for summer and fall planting. Heat Tolerant. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production.

BS10-50 - Divino Brussels Sprouts Seeds

110 days. Brassica oleracea. (F1) Divino Brussels Sprouts. The tall plant produces good yields of dark green Brussels Sprouts. The heads average 1 inch in diameter. The sprouts are spaced further apart, allowing plants to dry out quickly to avoid the spread of disease and making it easier to harvest the sprouts. They also showed the least aphid damage. The flavor is outstanding and only gets better as the cool temperatures arrive. Excellent storage variety. The leaves shed at maturity leaving a nice, clean stalk. It will mature by Thanksgiving in most areas. It holds well on the stalk for the whole stalk harvest. Holds well in the field. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA.

HP2513-10 - Dragons Back Pepper Seeds

75 days. Capsicum annum. Open Pollinated. Dragons Back Pepper. The plant produces good yields of 5" long by 3/4" wide hot peppers. Peppers are medium hot, have thin flesh, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent drying pepper, stir-fries, and for making salsa, chile powder, and hot sauce. It is named after the mountain Dragon`s Back, which is located south of Hong Kong. The Dragons Back is located along the Li River near Guilin and curves majestically around the contours of the mountains like the scales of a dragon`s back. A variety from China. Scoville Heat Units: 5,000.

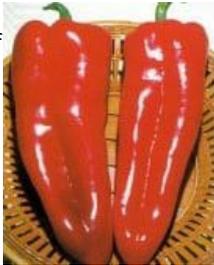

HP2514-10 - Dragon's Breath Pepper Seeds

90+ days. Capsicum chinense. Open Pollinated. Dragon's Breath Pepper. The plant produces good yields of 2 1/2" long by 1 3/4" wide Habanero peppers. Peppers are extremely hot, have medium thick flesh, and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, pickling, and hot sauce. Reported to have more heat than the Reaper. A rare variety from India.

SP390-10 - Dolce Italiano Pepper Seeds

75 days. Capsicum annum. Open Pollinated. Dolce Italiano Pepper. The plant produces good yields of 6" long by 2" wide Cubanelle peppers. Peppers have thick flesh and turn from green to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for salads, pickling, stuffing, and garnishes. A variety from Italy.

TM692-10 - Earl's Faux Tomato Seeds

80 days. Solanum lycopersicum. Open Pollinated. Earl's Faux Tomato. The plant produces good yields of large 12 to 16 oz deep pink beefsteak tomatoes. They are smooth and have a deliciously rich flavor that is both sweet and complex. The flavor is so good that this variety has won several awards in tomato-tasting contests. Perfect for sandwiches, salads, and slicing. A potato leaf variety. Excellent choice for home gardens. An heirloom variety from Earl Cadenhead of Franklin, Ohio, USA. Indeterminate.

PM69-10 - Early Giant Pumpkins

95 days. Cucurbita maxima. (F1) The plant produces large 20 - 30 lb tall dark orange pumpkins. This pumpkin matures early and has a beautiful dark orange color. It has smooth skin and strong, dark green carrying handles. The full vines are very productive with tolerance to powdery mildew. The tall dark orange pumpkins attract attention at roadside stands and Farmer's Markets. An excellent choice for home gardens and Farmer's Markets. A variety from the USA. Disease Resistant: PM.

BR81-500 - Early Jade Chinese Broccoli Seeds

50

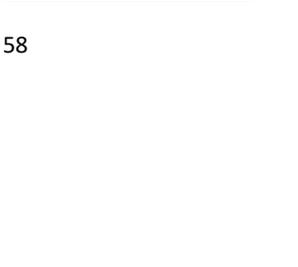

days. Brassica oleracea. (F1) Early Jade Chinese Broccoli. This early-maturing plant produces good yields of dark green broccoli. The leaves are big and dark green with thick stems. It is a popular Oriental green vegetable that is grown for its stalks and leaves. Slow to bolt. Suitable for spring, and fall planting. An excellent choice for home gardens, market growers, and commercial growers. A variety from the USA.

BR62-500 - Early Pugliesi Broccoli Raab Seeds

60 days. Brassica rapa. Open Pollinated. Early Pugliesi Broccoli Raab. The plant produces good yields of green broccoli raab. This plant has tender tops and flower shoots. The plants should be cut at the base before they have finished flowering. Their tender tops can be served as a side dish when boiled, stewed, or lightly fried. Excellent for stir fry and salads. Plant from early spring to late summer. Also known as Italian Turnip Greens. An excellent choice for home gardens. A variety from Italy.

BR65-100 - Eastern Crown Broccoli Seeds

58

days. Brassica oleracea. (F1) Eastern Crown Broccoli. This early maturing plant produces high yields of dark blue green broccoli with dome shaped heads. It holds color well in hot weather. Holds in the fields well too. Suitable for spring and summer planting. Heat Tolerant. It is perfect for East Coast growing conditions. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production.

BR33-100 - Eastern Magic Broccoli Seeds

62 days. Brassica oleracea. (F1) Eastern Magic Broccoli. The plant produces excellent yields of blue-green dome shaped broccoli. It is very flavorful. Great for fresh use in salads, steamed, and stir-fries. Suitable for summer and fall harvest. It was developed especially for the Mid Atlantic, Northeast, and Canada. Heat Tolerant. An excellent choice for home gardens, farmer’s markets, market growers, open production, and commercial production.

HB196-500 - Edible Wildflower & Herb Mix Seeds

100 days. Annual/Perennial. Open Pollinated. Edible Wildflower & Herb Mix. This seed mix has a variety of colorful and tasty edible wildflowers and herbs. Includes Cilantro Coriander, Nasturtium, Chives, Dianthus, Borage, Calendula, Cornflower, Johnny Jump-Up, Pansy, English Daisy, Lavender Hyssop, and Lemon Mint. Suitable for borders, herb gardens, and flower gardens. An excellent choice for home gardens.

Coverage Rate: 1 lb covers 1,000 - 2,000 sq ft

SN12-100 - Edna Spinach Seeds

25 days. Spinacia oleracea. (F1) Edna Spinach. This early maturing plant produces heavy yields of very flavorful dark green spinach leaves. Excellent for baby leaf Spinach. Usually steamed or boiled for nutritious greens and used to make a beautiful salad. Suitable for both spring and fall plantings. Excellent choice for home gardens and market growers. Disease Resistant: DM, R.

SW19-100 - El Dorado Swiss Chard

35 to 65 days. Beta vulgaris. Open Pollinated. The plant produces good yields of beautiful Swiss Chard with golden yellow stalks and glossy dark green leaves. The stalks turn to a golden yellow when mature. Usually used fresh in salads, sandwiches, or lightly steamed. May be harvested as a baby vegetable at 35 days. Great for Gourmet dishes. Excellent choice for home gardens.

BR66-100 - Emerald Jewel Broccoli Seeds

70 days. Brassica oleracea. (F1) Emerald Jewel Broccoli. The plant produces good yields of dark blue-green broccoli with dome-shaped heads. Suitable for spring, summer, and fall planting. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: CR.

BR70-100 - Emerald Star Broccoli Seeds

74

days. Brassica oleracea. (F1) Emerald Star Broccoli. The plant produces good yields of large blue-green broccoli. It can handle extreme temperatures better than most other varieties. Cold Tolerant. Heat Tolerant. Suitable for spring and fall planting. Holds well in the field. An excellent choice for home gardens, market growers, and commercial growers. A variety from the USA.

ES5 - Emergency Survival Herb Seeds Kit (15 Herb Varieties)

This Emergency Survival Herb Seeds Kit has 15 different herb varieties. The seeds are specially dried and sealed for long-term emergency survival seed storage. All seeds are open-pollinated heirloom varieties and 100% non-GMO. This kit should be a priority for any preparedness plan for national food shortages, war, or national disasters. The seeds selected are adaptable to short-season climates and do well in all regions of the country and are easy to grow for first-time gardeners. It includes planting instructions and a seed-saving guide. The kit includes Anise, Basil, Borage, Chamomile, Cilantro, Dandelions, Echinacea, Fennel, Lavender, Lemon Balm, Marjoram, Mountain Mint, Peppermint, Rosemary, and Thyme. Buy and keep a supply of kits to provide for family security during times of uncertainty in the food supply chain. The kits are moisture-proof and come in a resealable bag.
