

Spinach

[SN8-100 - Giant Nobel Spinach Seeds](#)

1933 All-America Selections Winner!

43 days. *Spinacia oleracea*. Open Pollinated. Giant Nobel Spinach. The plant produces extremely large and flavorful dark green spinach leaves. This is the giant spinach variety spreading 25" across. Usually steamed or boiled for nutritious greens and used to make an exciting salad. Also great for canning and freezing. Slow to bolt variety. An excellent choice for home gardens and market growers. A 1926 heirloom variety. United States Department of Agriculture, PI 156724.
