G01-100 - Shungiku

40 days. Chrysanthemum coronarium. Produces good yields of dark green leaves. Easy and quick to grow. Excellent for stir fry and other Oriental dishes. pk/100

LC54-100 - Asian Red Lettuce

70 days. Lactuca sativa. Plant produces bright red leaf type lettuce. This is one of the most popular leaf lettuce varieties in Asia. Its frilled crumpled leaves are crisp, tender, and very flavorful. Excellent for salads and garnishes. pk/100

MU10-100 - Old Fashioned Mustard

48 days. Brassica juncea. Plant produces good yields of flavorful medium dark green mustard leaves. Excellent greens used in salads or cooked. Harvest promptly and often, as this is an early bolting mustard green. pk/100

MU9-100 - Tatsoi Mustard

55 days. Brassica juncea. Plant produces good yields of flavorful mustard leaves. This oriental vegetable forms dense leaves that can be also be harvested as a whole plant and bunched. Excellent greens used in salads or cooked. pk/100
