

# Eggplants

## [EG54-50 - Turkish Orange Eggplants](#)

85 days. Solanum melongena. Open Pollinated. The plant produces high yields of 3" round vibrant orange eggplants. The eggplants are very flavorful. Best when harvested when they are green to light orange. Perfect for grilling, frying, stuffing, baking, and even putting on veggie pizzas. The plant will require support because it's so prolific. The plant also appears to be insect resistant. An excellent choice for home gardens and market growers. An heirloom variety from Turkey.
