

# Swiss Chard

## [SW1-100 - Bright Lights Swiss Chard Seeds](#)

### **1998 All-America Selections Winner!**

42 days. Beta vulgaris. Open Pollinated.  
Bright Lights Swiss Chard. This early maturing plant produces good yields of flavorful burgundy and green leaves. The stems are full of rainbow colors of gold, orange, red, white, and yellow making it a very beautiful plant. Usually used fresh in salads or lightly steamed. Also used as a delightful garnish. Excellent choice for home gardens and specialty market growers.
