

Yellow Carrots

[CT36-100 - Rainbow Carrots](#)

57 to 68 days. *Daucus carota*. (F1) Plant produces excellent quality 6" to 11" long of rainbow colored carrots. Beautiful orange, white, and yellow carrots are crisp and very sweet. Excellent for salads and gourmet dishes. Excellent choice for home gardens.

[CT44-100 - Solar Yellow Carrots](#)

75 days. *Daucus carota*. Open Pollinated. Plant produces good yields of 6 to 7" long yellow carrots. It has buttery yellow flesh and is sweet and crisp. Delicious raw or cooked. Bake or steam the carrot instead of boiling for the best color. Add color to your salad by adding purple, red, and white carrots. This yellow carrot is a real stand out at farmers markets. Excellent choice for home gardens and market growers. A heirloom variety.

[CT20-100 - Yellowstone Carrots](#)

70 days. *Daucus carota*. Open Pollinated. Plant produces sweet and tender 8 to 10" long yellow carrots. The carrots are pure yellow throughout with crisp, tender texture and sweet flavor. Excellent for salads and gourmet dishes. Wonderful raw or cooked. Great for making carrot soup. Add color to your favorite dish by growing different color carrots. It has strong tops making it easy for harvesting. Extremely productive and adaptable to many growing conditions. Excellent choice for home gardens.
