CU108-5 - Cucino Cucumbers

F-1 Hybrid Variety

46 days. Cucumis sativus. (F1) Plant produces excellent yields of 3" long baby cucumbers. These mini cucumbers make perfect snacks and canapes! These bitter free and burpless cucumbers are excellent for salads or snacks. It has smaller seeds than full size cucumbers, and are crunchier and can be eaten straight from the plant without peeling. This variety can be grown in the greenhouse. One great feature is that it can be grown indoors or in a sheltered position outdoors and will produce prolifically throughout the season. pk/5

CU111-20 - Greenhouse Long Burpless Cucumbers

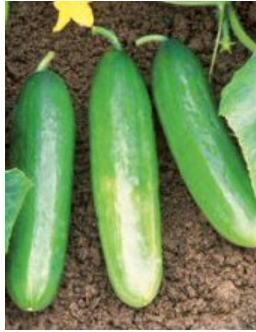

F-1 Hybrid Variety

46 days. Cucumis sativus. (F1) Plant produces excellent yields of burpless greenhouse cucumbers. These long cucumbers are bitter free and burpless. Excellent for salads. This is an excellent greenhouse variety. pk/20

CU24-20 - Diva Cucumbers

F-1 Hybrid Variety

All-America Selections Winner

2002 All-America Selections Winner! 58 days. Cucumis sativus. (F1) Plant produces good yields of non-bitter burpless and seedless glossy dark green cucumbers. Will produce without pollination! Excellent for salads or pickling. Perfect for home gardens, greenhouse, and market growers. Disease Resistant: S, Tolerant DM, PM. pk/20

CU35-20 - Celebrity Cucumbers

F-1 Hybrid Variety

50 days. Cucumis sativus. (F1) Plant produces good yields of 6" long bright green burpless cucumbers. These cucumbers have thin, smooth, tender bright green skin. Excellent for salads. pk/20

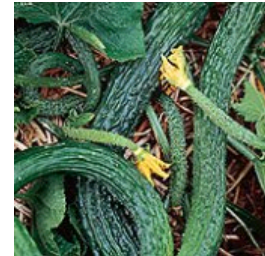

CU77-5 - Holland Hothouse Cucumbers

F-1 Hybrid Variety

64 days. Cucumis sativus. (F1) Plant produces excellent yields of uniform 15" long dark green cucumbers. These bitter free and burpless cucumbers are excellent for salads or slicing. This variety can be grown in the greenhouse. Self-pollinating and very productive. Suitable for home gardeners and market growers. pk/5

CU25-20 - Suyo Long Cucumbers

Certified Organic

60 days. Cucumis sativus. Plant produces excellent yields of thin 16" long cucumbers. Delicious, tender, crispy, burpless, and non-bitter. Excellent for salads and bread and butter pickles. This variety grows well in hot weather. A variety from China. Certified Organic. pk/20

CU76-20 - Beit Alpha Cucumbers

56 days. Cucumis sativus. Plant produces excellent yields of 12" long sweet, bitter free, and burpless cucumbers. A Middle Eastern type cucumber that is smooth and blocky with dark green skin. The flesh is crunchy, and the skin so mild it does not have to be peeled. Can be used for pickling or sliced in salads. Disease Resistant. CMV and WMV. pk/20

CU93-20 - Early Spring Burpless Cucumbers

F-1 Hybrid Variety

52 days. Cucumis sativus. (F1) Plant produces high yields of slender 12" long dark green slicing type cucumbers. Cucumbers are crisp and bitter-free. They are uniformly straight and smooth. Best grown on a fence or trellis for easy harvest. Excellent for home gardens and market growers. pk/20
