CN33-50 - Delectable Corn

F-1 Hybrid Variety

80 days. Zea mays. (F1) Plant produces good yields of 8" long smallkerneled bi-colored ears of corn. Also recommended for baby corn production. Plant Height: 6 ft tall. pk/50

CN8-50 - Baby Corn

65 days. Zea mays. Plant produces good yields of tiny ears of baby corn. These tiny ears of corn are very tender and entirely edible. Excellent for stir fries and pickling. Best if harvested within 5 days of the appearance of silk. Perfect freezing variety. pk/50

CN35-50 - Golden Midget Corn

90 days. Zea mays. Plant produces good yields of small 4" ears of yellow corn. These baby ears are extremely sweet and tender with old fashioned corn taste. Perfect for whole ear freezing. Plant successive plantings every two weeks for 6 weeks for continuous harvest of baby corn ears. Plant Height: 3 ft tall. pk/50
