BT20-50 - Boltardy Beets

56 days. Beta vulgaris. Plant produces good yields of large deep crimson round beets. This is one of the most popular beet varieties in England. They are ideal pickled with vinegar or used fresh in salads! pk/50

BT21-50 - Crimson Globe Beets

56 days. Beta vulgaris. Plant produces good yields of large rich maroon globe shaped beets. An improved Detroit Dark Red version beet that is ideal for successional sowing. pk/50

BT22-50 - Golden Detroit Beets

55 days. Beta vulgaris. Plant produces good yields of large orange round shaped beets. The beets turn deep yellow when cooked, and do not bleed like red beets. The roots retain their sweet flavor during cooking! The green leaves with yellow stems can be used in salads when young and can be cooked as greens when mature. pk/50

BT23-50 - White Detroit Beets

55 days. Beta vulgaris. Plant produces good yields of large white beets. The beets are very flavorful. The roots retain their sweet flavor during cooking! Perfect for gourmet dishes. pk/50
