

Year 1971

[PE37-50 - Patio Pride Sweet Pea Seeds](#)

1971 All-America Selections Winner!

40 days. Pisum sativum. Open Pollinated. Patio Pride Sweet Peas. This early maturing compact plant produces good yields of sweet peas. The peas are sweet and very tender when harvested early. Perfect fresh in salads, in soups, and used in cooking. Suitable for small gardens, raised beds, containers, and patios. It is perfect for succession planting every 2 weeks, so you have fresh peas all year. Easy to grow. Use a trellis for support. An excellent choice for home gardens. A variety from the USA.
