## CU108-5 - Cucino Cucumbers

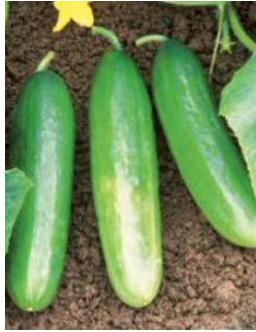

### F-1 Hybrid Variety

46 days. Cucumis sativus. (F1) Plant produces excellent yields of 3" long baby cucumbers. These mini cucumbers make perfect snacks and canapes! These bitter free and burpless cucumbers are excellent for salads or snacks. It has smaller seeds than full size cucumbers, and are crunchier and can be eaten straight from the plant without peeling. This variety can be grown in the greenhouse. One great feature is that it can be grown indoors or in a sheltered position outdoors and will produce prolifically throughout the season. pk/5

## CU24-20 - Diva Cucumbers

### F-1 Hybrid Variety

#### All-America Selections Winner

2002 All-America Selections Winner! 58 days. Cucumis sativus. (F1) Plant produces good yields of non-bitter burpless and seedless glossy dark green cucumbers. Will produce without pollination! Excellent for salads or pickling. Perfect for home gardens, greenhouse, and market growers. Disease Resistant: S, Tolerant DM, PM. pk/20

## CU28-10 - Tasty King Cucumbers

### F-1 Hybrid Variety

62 days. Cucumis sativus. (F1) Plant produces high yields of delicious burpless and uniform 10" long cucumbers. One of the best tasting burpless cucumbers on the market! An excellent greenhouse variety. Suitable for home garden and market growers. Disease Resistant. pk/10

## CU77-5 - Holland Hothouse Cucumbers

### F-1 Hybrid Variety

64 days. Cucumis sativus. (F1) Plant produces excellent yields of uniform 15" long dark green cucumbers. These bitter free and burpless cucumbers are excellent for salads or slicing. This variety can be grown in the greenhouse. Self-pollinating and very productive. Suitable for home gardeners and market growers. pk/5

## CU111-20 - Greenhouse Long Burpless Cucumbers

### F-1 Hybrid Variety

46 days. Cucumis sativus. (F1) Plant produces excellent yields of burpless greenhouse cucumbers. These long cucumbers are bitter free and burpless. Excellent for salads. This is an excellent greenhouse variety. pk/20
