

Leeks

[LK1-100 - American Flag Leeks](#)

140 days. Allium ampeloprasum. Open Pollinated. The plant produces excellent yields of very flavorful leeks. Used in soups, stir-fries, stews, and salads. Also known as Giant Musselburg Leek and Scotch Flag Leek. Suitable for greenhouse production. An excellent choice for home gardens, greenhouses, market growers, and open field production. An heirloom variety dating back to 1870. United States Department of Agriculture, G 29243.

[LK2-100 - King Richard Leeks](#)

75 days. Allium ampeloprasum. Open Pollinated. A very early variety that produces high yields of quality leeks. The flavor is mild. Excellent in soups, stews, and salads. Suitable for hydroponics gardening. An excellent choice for home gardens and market growers. United States Department of Agriculture, W6 44541.

[LK5-100 - Prizetaker Leeks](#)

110 days. Allium ampeloprasum. Open Pollinated. The plant produces high quality and very tall leeks. The stalks are pure white and retain it flavor even with its extremely large size. A cold-resistant variety that holds well over the winter. Used in soups, stews, and salads. Also known as Lyon Leek. An excellent choice for home gardens. An 1800s heirloom variety from England.
