SN10-50 - Tye Spinach

F-1 Hybrid Variety

37 days. Spinacia oleracea. (F1) Plant produces good yields of very flavorful medium green spinach leaves. Tye is the most bolt-resistant of all spinaches, allowing spinach production much further into the summer than is possible for other varieties. Disease Resistant: Downy Mildew Races 1-3. pk/50

SN2-50 - New Zealand Spinach

70 days. Tetragonia tetragonoides. Plant produces very flavorful medium green spinach leaves. This variety produces continuously all year, from spring to fall. It produces small, thick, tender, dark green triangular leaves. The more you cut them, the more they will produce. Unlike regular spinach, it thrives in hot summers and can tolerate droughts. Disease Resistant. pk/50

SN4-50 - Razzle Dazzle Spinach

F-1 Hybrid Variety

30 days. Spinacia oleracea. (F1) Plant produces high yields of flavorful green spinach leaves. One of the earliest spinach on the market. Used in salads or cooked. Excellent freezing variety. Disease Resistant. pk/50

SN6-50 - Resistoflay Spinach

48 days. Spinacia oleracea. Plant produces very flavorful dark green spinach. Suitable for home garden and market growers. United States Department of Agriculture, NSL 26513. pk/50

SN8-50 - Giant Nobel Spinach

All-America Selections Winner

1933 All-America Selections Winner! 46 days. Spinacia oleracea. Plant produces very large and flavorful dark green spinach leaves. Delicious raw or cooked. Good fresh, canned and frozen. Slow to bolt variety. Easy to grow. pk/50

SN1-50 - Bloomsdale Long Standing Spinach

48 days. Spinacia oleracea. Plant produces very flavorful dark green spinach leaves. This is the finest Bloomsdale variety available. United States Department of Agriculture, NSL 6090. pk/50

SN3-50 - Melody Spinach

F-1 Hybrid Variety

All-America Selections Winner

1977 All-America Selections Winner! 40 days. Spinacia oleracea. (F1) Plant produces very flavorful medium green spinach leaves. Delicious raw or cooked. Good fresh, canned and frozen. An important green crop that is very hardy and withstands considerable freezing weather. Easy to grow. Disease Resistant: CMV and DM 1 & 2. pk/50

SN5-50 - Teton Spinach

F-1 Hybrid Variety

45 days. Spinacia oleracea. (F1) Plant produces high yields of flavorful dark green spinach leaves. This variety is slow to bolt. Excellent greens used in salads or cooked. High in Vitamin A, C, and B-complex. Good freezing variety. pk/50

SN7-50 - Viroflay Spinach

50 days. Spinacia oleracea. Plant produces good yields of very flavorful spinach leaves. Suitable for home garden and market growers. pk/50

SN9-50 - Early No 7 Spinach

37 days. Spinacia oleracea. Large plant produces heavy yields of very flavorful medium dark green spinach leaves. For fall or winter harvest in South and West. Disease Resistant: DM, CMV. pk/50
