

Ccu - Scab Resistant Cucumbers

CU101-20 - Alibi Cucumber Seeds

50 days. Cucumis sativus. (F1) Alibi Cucumber. The plant produces very high yields of 3 to 4" long medium green cucumbers. This is a very productive variety. If you keep picking, they'll keep producing. Great for making gherkin pickles and best when picked 2" long for pickling. An excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

CU129-20 - Brickyard Cucumber Seeds

50 days. Cucumis sativus. (F1) Brickyard Cucumber. This early maturing plant produces high yields of 8" long smooth dark green cucumbers. It has a strong vigorous vines. One of the most disease-resistant varieties. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU20-20 - Bush Crop Cucumber Seeds

55 days. Cucumis sativus. (F1) Bush Crop Cucumber. This early maturing compact bush plant produces high yields of 6 to 8" green cucumbers. They are crisp, tender, and flavorful. Excellent in salads or for making dills or fancy sweet pickles. Bush cucumbers produce very nice straight cucumbers. It grows very short vines, only 1 to 2 feet long, and is one of the best varieties for container gardens and small gardens. An excellent choice for home gardens. Disease Resistant: Ccu.

CU5-20 - Bush Pickle Cucumber Seeds

45 days. Cucumis sativus. (F1) Bush Pickle Cucumber. This early maturing compact plant produces high yields of very flavorful 4 to 5" long green cucumbers. This is one of the best quality varieties for making crisp whole dill pickles. If you make your own pickles, you have to try this variety! This variety was developed specifically for space-saving gardens and containers. An excellent choice for home gardens. Disease Resistant: Ccu, CMV.

CU7-20 - Cool Breeze Cucumbers

45 days. Cucumis sativus. (F1) This early variety produces huge yields of 4 to 5" long flavorful cucumbers. Excellent for making sweet pickles. Best when picked about 2" long for pickling. Plant yields as many as 50 cucumbers per plant. The parthenocarpic variety and no male pollen are needed, so even if bees are scarce you'll still get a bumper crop. Plants are widely adapted and are particularly popular in Northern regions. An excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, PM.

CU36-20 - Cross Country Cucumber Seeds

53 days. Cucumis sativus. (F1) Cross Country Cucumber. The plant produces high yields of dark green cucumbers. Cucumbers are crisp and tender and perfect for making bread and butter or dill pickles. Does well under a variety of growing conditions. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU130-20 - Cucamelon Cucumber Seeds

67 days. *Melothria scabra*. Open Pollinated. Cucamelon Cucumber. The plant produces good yields of small 1" long pale green cucumbers with dark green stripes. They are very delicious and have a unique flavor. They look like miniature watermelons but have a cucumber taste with a slight citrus flavor. It has been used for centuries by the Aztecs and other native peoples. Excellent for salads, sandwiches, spreads, pickling, or snacks. Kids love them. You should pick mature cucumbers to encourage longer yields. Similar to the Mexican Sour Gherkin and known as the Mouse Melon. The plant is most productive in hot weather or a greenhouse setting. Heat Tolerant. Drought Tolerant. High Humidity Tolerant. It would be best if you used a trellis or a pea fence. Suitable for hanging baskets. An excellent choice for home gardens, Farmer's Markets, greenhouses, market growers, and open field production. An heirloom variety from Mexico and Central America. Disease Resistant.

CU102-20 - Dasher II Cucumbers

58 days. *Cucumis sativus*. (F1) This early maturing plant produces high yields of 8 to 10" long dark green cucumbers. A quality slicing variety is best grown on a fence or trellis for easy harvest. One of the highest-yielding cucumber varieties available. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU24-20 - Diva Cucumber Seeds

2002 All-America Selections Winner!

58 days. *Cucumis sativus*. (F1) Diva Cucumber. The plant produces high yields of non-bitter burpless and seedless 6 to 8" long glossy dark green cucumbers. Cucumbers are tender, crisp, sweet, and bitter-free. Best when harvested at 4 to 5" long. Excellent for salads or pickling. Plant foliage is non-bitter and less attractive to the cucumber beetles than some varieties. It is a gynoecious and parthenocarpic variety and will produce without pollination! It is known for its big yields. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CVYV, DM, PM.

CU89-20 - Eureka Cucumbers

57 days. *Cucumis sativus*. (F1) This early producing plant produces high yields of 5 to 7" long dark green cucumbers. Best when harvested when 2 to 5" for pickling. Monoecious and virtually trouble-free. Very flavorful and crisp. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU94-20 - Fancipak Cucumber Seeds

57 days. *Cucumis sativus*. (F1) Fancipak Cucumber. The plant produces high yields of medium dark green cucumbers. They are crisp and very tasty. Best when harvested when 4" long. The plant has dense foliage protecting the cucumbers from sunscald. Excellent pickling variety. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, ZYMV.

CU9-20 - Fanfare Cucumber Seeds

1994 All-America Selections Winner!

63 days. *Cucumis sativus*. (F1) Fanfare Cucumber. This semi-dwarf plant produces heavy yields of 8 to 10" long deep green cucumbers. They are crisp and very delicious with a mild taste. Great slicing cucumber for salads. Due to its compact vines, this hybrid variety can be planted at closer row spacing than normal cucumbers. It produces high-quality cucumbers over a longer time than other varieties. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU31-20 - General Lee Cucumbers

66 days. Cucumis sativus. (F1) This plant produces excellent yields of uniform 8 to 8 ½" long dark green cucumbers. Excellent for salads or slicing. This variety can be grown in spring and fall. This is a gynoecious plant and has a high yield potential and a 10% pollinator is added. It is a great choice for local fresh markets. Does well in both northern and southern parts of the country. Excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

CU131-20 - Goliath Cucumber Seeds

58 days. Cucumis sativus. (F1) Goliath Cucumber. This early maturing plant produces heavy yields of 8" long smooth dark green cucumbers. Cucumbers are non-bitter and very tasty. It has a strong vigorous vines and holds well in the field. Very disease-resistant. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, PM, TLS, ZYMV.

CU97-20 - Jackson Supreme Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of dark green pickling cucumbers. Cucumbers are best when harvested when 3 or 4" long. Excellent quality pickling variety. One of the most disease-resistant cucumbers on the market. Grows well in the Southern States of the USA. Excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU41-20 - Little Leaf Cucumber Seeds

57 days. Cucumis sativus. Open Pollinated. Little Leaf Cucumber. This compact plant produces high yields of 3 to 5" long emerald green colored cucumbers. It may be the highest yielding pickling cucumber on the market today, producing 25 to 30 cucumbers per plant! An excellent cucumber for salads and pickling. It is a parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper crop. Perfect for container gardening. Does well under stress and adverse weather conditions. Heat Tolerant. Drought Tolerant, Cold Tolerant. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, hydroponics, greenhouses, market growers, and open field production. Developed in 1991 by the University of Arkansas, USA. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU13-20 - Marketmore 76 Cucumber Seeds

68 days. Cucumis sativus. Open Pollinated. Marketmore 76 Cucumber. The plant produces heavy yields of 8 to 10" long dark green cucumbers. Excellent slicing cucumber and can also be used to make dill pickles. Does well even under adverse weather conditions over a long season in hot or cool weather. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 561148. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU113-20 - Marketmore 97 Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Marketmore 97 Cucumber. The plant produces good yields of 9 to 11" long cucumbers. Excellent flavor and is perfect for salads or pickling when harvested at 3 to 5" long. Cucumbers are non-bitter and burpless. Tolerant to the striped cucumber beetle and the spotted cucumber beetle. One of the most disease-resistant varieties developed. Suitable for commercial growers. An excellent choice for home gardens, market growers, and open field production. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: ALS, Ccu, CMV, DM, PM, PRSV, TLS, ULS, WMV, ZYMV.

CU16-20 - National Pickling Improved Cucumbers

54 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6" long medium green cucumbers. Ideal for making dill pickles or eating fresh in salads. Can also be harvested when very tiny 1 to 2" for making little pickles. They are slightly tapered in shape to fit in a pickle jar. Excellent choice for home gardens and market growers. Developed by the National Pickle Packers Association. United States Department of Agriculture, NSL 5746. Disease Resistant: Ccu, CMV.

CU124-20 - Pick a Bushel Cucumbers

2014 All-America Selections Winner!

60 days. Cucumis sativus. (F1) Semi bush plant produces high yields of 3 to 6" long green cucumbers. These cucumbers can be picked when they are 3" long for gherkin size or left to grow into 6" long for use in salads. They are tasty with no bitterness. The semi-bush vines grow only 24" long, so they are great for growing in patio containers as well as in small gardens. An excellent choice for home gardens. Heat Tolerant. Disease Resistant: Ccu, CGMMV, CMV.

CU56-20 - Pioneer Cucumbers

51 days. Cucumis sativus. (F1) The plant produces high yields of 3 to 6" long dark green cucumbers. Crunchy flesh makes it great for making pickles. Can be used fresh in salads or pickled. One of the most reliable cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: ALS, Ccu, DM.

CU69-20 - Raider Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of uniform dark green cucumbers. Excellent for salads or slicing. One of the earliest-maturing slicers on the market. A gynocious hybrid (mostly female) variety that is great for Canada and the Northern United States. Suitable for home gardens and market growers. Disease Resistant: ALS, Ccu, CMV.

CU96-20 - Rockingham Cucumbers

58 days. Cucumis sativus. (F1) The plant produces high yields of 8 1/2" long dark green cucumbers. This cucumber is most appreciated by commercial growers because it produces nice dark green, smooth, and long cucumbers. Vines are strong and vigorous. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, Ccu, ALS, CMV, PM.

CU98-10 - Salad Bush Cucumber Seeds

1988 All-America Selections Winner!

57 days. Cucumis sativus. (F1) Salad Bush Cucumber. This early maturing compact bush plant produces good yields of 8" long by 2 1/4" wide glossy dark green cucumbers. Cucumbers are tender and crisp. This small plant is the perfect variety for growing indoors in containers and small gardens as it only uses 2 square feet of space. Also grows well in hanging baskets. An excellent choice for home gardens. Disease Resistant: Ccu, CMV.

CU23-20 - Spacemaster 80 Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Spacemaster 80 Cucumber. This compact bush-type plant produces heavy yields of 7 to 8" long nicely shaped dark green cucumbers. Excellent for pickling when small, and slicing when they get bigger. They are crisp and tasty. A great bush variety cucumber has amazing flavor with no bitterness. Ideal for containers, hanging baskets, or home gardens with limited space. The plant has short vines, only 3 feet long! Also perfect for close commercial cropping. Also suitable for hydroponic gardening. Excellent choice for home gardens and market growers. Developed in 1980 by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: Ccu, CMV, DM, PM.

CU22-20 - Spacemaster Cucumbers

60 days. Cucumis sativus. Open Pollinated. This compact bush-type plant produces excellent yields of 6 to 8" long slender dark green cucumbers. Great for pickling when small, and slicing when they get bigger. The ultimate cucumber for vegetable gardens with limited space! Its vines are only 2 to 3 feet long. It is ideal for containers, hanging baskets, or small gardens with limited space. It is almost a daily ritual to keep them picked since they grow so rapidly. Suitable for hydroponic gardening too. An excellent choice for home gardens. Developed by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, NSL 112204. Disease Resistant: Ccu, CMV.

CU104-20 - Speedway Cucumbers

56 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 8" long smooth straight dark green cucumbers. This cucumber variety is popular because of its earliness, its yields, and its disease resistance. This quality cucumber has tender skin and grows best if grown on trellis or stakes. One of the most disease-resistant cucumbers on the market. Excellent for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU4-20 - Stonewall Cucumbers

53 days. Cucumis sativus. (F1) The plant produces high yields of 8 to 9" long straight dark green cucumbers. It has received high grades for quality, shape, size, and is the No. 1 cucumber variety for commercial production. Perfect for salads and slicing. Stores well. Agriculture researchers and commercial growers are very familiar with this top performer. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU27-10 - Sweet Success Cucumber Seeds

1983 All-America Selections Winner!

58 days. Cucumis sativus. (F1) Sweet Success Cucumber. The plant produces good yields of 12" long seedless and burpless dark green cucumbers. This high quality cucumber has tender skin and grows perfectly straight if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CMV, TLS, WMV.

CU105-20 - Thunder Cucumbers

55 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 8 ½" long smooth glossy dark green cucumbers. A top commercial quality slicing variety with strong disease resistance. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, ZYMV.

CU92-20 - Turbo Cucumbers

67 days. Cucumis sativus. (F1) The plant produces high yields of 9" long dark green slicing type cucumbers. It is crisp and very delicious. This quality cucumber grows best if grown on trellis or stakes. Does well in the Northeast parts of the country. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU30-20 - Wisconsin SMR 58 Cucumbers

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 2 ½ to 6" long dark green cucumbers. Best for making dill pickles. Very crisp and sweet. You have to try this variety if you love making homemade pickles. It has a mild flavor that is perfect for soaking up spices when making pickles. One of the absolute best non-hybrid pickling cucumbers available. Grow on trellis or fence for straight cucumbers. Excellent choice for home gardens and market growers. Developed by the University of Michigan in 1959 short seasons and Northern climates. United States Department of Agriculture, NSL 30808. Disease Resistant: Ccu, CMV.
