FZ1 - Bulbs Alive

An organic fertilizer that helps produce stronger plants and bigger crops. Apply a tablespoon of Bulbs Alive twice each season for healthier plants. Side dress Bulbs Alive after seedlings emerge, then use it as a side-dressing when plants start active growth. Research has shown that Bulbs Alive produces 150% greater yield than without any feeding. It is great for all types of bulb type plants - flowers, herbs, and vegetables! Your plants will produce more blossoms, set higher yields, and produce larger plants. Package: 1/4 lb

TP12-50 - White Lady Turnips

F-1 Hybrid Variety

35 days. Brassica rapa. (F1) Plant produces good yields of bright green turnip greens. The pure white roots are sweet and delicious. You can harvest roots at any time and they will not become woody. Plant Height: 20" tall. pk/50

TP2-50 - Seven Top Turnips
