

Cabbage

[CB39-50 - Megaton Cabbage Seeds](#)

90 days. Brassica oleracea. (F1) Megaton Cabbage. The plant produces good yields of giant cabbage. The heads average 12 to 16 inches in diameter and weigh 15 to 22 lbs. Even when large, the heads hold without cracking and the solid white interior retains its mild, sweet flavor. Impress your neighbors and grow a giant cabbage. Excellent choice for home gardens. Disease Resistance: FY.

[CB6-50 - OS Cross Improved Cabbage Seeds](#)

1951 All-America Selections Winner!

85 days. Brassica oleracea. (F1) OS Cross Improved Cabbage. This variety produces large heads of green cabbage. Sturdy, short-stemmed plants with blue outside leaves and light green inner leaves. The heads average 24 to 36 inches in diameter and weigh 10 to 50 lbs. It often attained 70 pounds or more when grown under Alaska's long summer days. Heat Tolerant. Impress your neighbors and grow a Giant Cabbage! An excellent choice for home gardens.

[CB12-250 - Premium Late Flat Dutch Cabbage Seeds](#)

100 days. Brassica oleracea. Open Pollinated. Premium Late Flat Dutch Cabbage. The plant produces heavy crops of huge heads of cabbage. The heads average 10 to 12 inches in diameter and weigh 10 to 15 lbs. Excellent for making delicious sauerkraut. One of the best winter keepers holds its quality for months! Excellent choice for home gardens and market growers. An heirloom variety dating back to the 1860s. United States Department of Agriculture, NSL 32697.
