CMV - Cucumber Mosaic Virus Resistant Cucumbers

CU101-20 - Alibi Cucumber Seeds

50 days. Cucumis sativus. (F1) Alibi Cucumber. The plant produces very high yields of 3 to 4" long medium green cucumbers. This is a very productive variety. If you keep picking, they'll keep producing. Great for making gherkin pickles and best when picked 2" long for pickling. An excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

CU76-20 - Beit Alpha Cucumber Seeds

56 days. Cucumis sativus. (F1) Beit Alpha Cucumber. The plant produces excellent yields of 12" long sweet, bitter free, and burpless cucumbers. A Middle Eastern type cucumber that is smooth and blocky with dark green skin. The flesh is crunchy, and the skin is so mild it does not have to be peeled. It is usually picked small at 5 to 6" long. It can be used for pickling or sliced in salads. Long shelf life. One of the most disease-

resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. United States Department of Agriculture, PI 292010. Disease Resistant. CMV, CVYV, DM, PM, WMV, ZYMV.

CU61-20 - Boston Pickling Improved Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Boston Pickling Improved Cucumber. The plant produces heavy yields of small 3 to 7" long cucumbers. Perfect for making pickles, but also good in salads. They are very crisp and good quality. Best when harvested at 2 to 6" long. An 1880 heirloom variety. An excellent choice for home gardens and market growers. United States Department of Agriculture, NSL 5716. Disease Resistant: CMV.

CU129-20 - Brickyard Cucumber Seeds

50 days. Cucumis sativus. (F1) Brickyard Cucumber. This early maturing plant produces high yields of 8" long smooth dark green cucumbers. It has a strong vigorous vines. One of the most disease-resistant varieties. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU5-20 - Bush Pickle Cucumber Seeds

45 days. Cucumis sativus. (F1) Bush Pickle Cucumber. This early maturing compact plant produces high yields of very flavorful 4 to 5" long green cucumbers. This is one of the best quality varieties for making crisp whole dill pickles. If you make your own pickles, you have to try this variety! This variety was developed specifically for spacesaving gardens and containers. An excellent choice for home gardens. Disease Resistant: Ccu, CMV.

CU43-20 - Carolina Pickling Cucumber Seeds

51 days. Cucumis sativus. (F1) Carolina Pickling Cucumber. The plant produces good yields of 3" long cucumbers. The excellent quality variety is used to make pickles. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens and market growers. Developed by Clemson University, South Carolina, USA. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU7-20 - Cool Breeze Cucumbers

45 days. Cucumis sativus. (F1) This early variety produces huge yields of 4 to 5" long flavorful cucumbers. Excellent for making sweet pickles. Best when picked about 2" long ford pickling. Plant yields as many as 50 cucumbers per plant. The parthenocarpic variety and no male pollen are needed, so even if bees are scarce you'll still get a bumper crop. Plants are widely adapted and are particularly popular in Northern regions.

An excellent choice for home gardens and market growers. Disease Resistant. Ccu, CMV, PM.

CU130-20 - Cucamelon Cucumber Seeds

67 days. Melothria scabra. Open Pollinated. Cucamelon Cucumber. The plant produces good yields of small 1" long pale green cucumbers with dark green stripes. They are very delicious and have a unique flavor. They look like miniature watermelons but have a cucumber taste with a slight citrus flavor. It has been used for centuries by the Aztecs and other native peoples. Excellent for salads, sandwiches, spreads, pickling, or

snacks. Kids love them. You should pick mature cucumbers to encourage longer yields. Similar to the Mexican Sour Gherkin and known as the Mouse Melon. The plant is most productive in hot weather or a greenhouse setting. Heat Tolerant. Drought Tolerant. High Humidity Tolerant. It would be best if you used a trellis or a pea fence. Suitable for hanging baskets. An excellent choice for home gardens, Farmer's Markets, greenhouses, market growers, and open field production. An heirloom variety from Mexico and Central America. Disease Resistant.

CU36-20 - Cross Country Cucumber Seeds

53 days. Cucumis sativus. (F1) Cross Country Cucumber. The plant produces high yields of dark green cucumbers. Cucumbers are crisp and tender and perfect for making bread and butter or dill pickles. Does well under a variety of growing conditions. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial

production. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU102-10 - Dasher II Cucumber Seeds

58 days. Cucumis sativus. (F1) Dasher II Cucumber. This early maturing plant produces high yields of 8 to 10" long dark green cucumbers. A quality slicing variety is best grown on a fence or trellis for easy harvest. One of the highest yielding cucumber varieties available. One of the most disease resistant cucumbers on the market. An excellent choice for home

gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU89-20 - Eureka Cucumbers

57 days. Cucumis sativus. (F1) This early producing plant produces high yields of 5 to 7" long dark green cucumbers. Best when harvested when 2 to 5" for pickling. Monoecious and virtually trouble-free. Very flavorful and crisp. One of the most diseaseresistant cucumbers on the market. An excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

CU94-20 - Fancipak Cucumber Seeds

57 days. Cucumis sativus. (F1) Fancipak Cucumber. The plant produces high yields of medium dark green cucumbers. They are crisp and very tasty. Best when harvested when 4" long. The plant has dense foliage protecting the cucumbers from sunscald. Excellent pickling variety. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens,

farmer's markets, market growers, open

production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, ZYMV.

CU9-20 - Fanfare Cucumber Seeds

1994 All-America Selections Winner!

63 days. Cucumis sativus. (F1) Fanfare Cucumber. This semi-dwarf plant produces heavy yields of 8 to 10" long deep green cucumbers. They are crisp and very delicious with a mild taste. Great slicing cucumber for salads. Due to its compact vines, this hybrid variety can be planted at closer row spacing than normal cucumbers. It produces high-

quality cucumbers over a longer time than other varieties. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU31-20 - General Lee Cucumbers

66 days. Cucumis sativus. (F1) This plant produces excellent yields of uniform 8 to 8 ½" long dark green cucumbers. Excellent for salads or slicing. This variety can be grown in spring and fall. This is a gynoecious plant and has a high yield potential and a 10% pollinator is added. It is a great choice for local fresh markets. Does well in both northern and southern parts of the country. Excellent choice for home gardens and

market growers. Disease Resistant: Ccu, CMV, DM, PM.

CU131-20 - Goliath Cucumber Seeds

58 days. Cucumis sativus. (F1) Goliath Cucumber. This early maturing plant produces heavy yields of 8" long smooth dark green cucumbers. Cucumbers are nonbitter and very tasty. It has a strong vigorous vines and holds well in the field. Very disease-resistant. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, PM, TLS, ZYMV.

CU10-20 - Homemade Pickles Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Homemade Pickles Cucumber. The plant produces heavy yields of 5 to 6" long green cucumbers. This variety was specially bred for making pickles and is best when harvested when 1 ½ to 2" for making tiny pickles. The cucumbers are solid and crisp with superb flavor. Perfect for container gardening or small gardens where space is very limited! An excellent choice for home gardens. Disease Resistant: A, ALS, CMV, DM, PM.

CU97-20 - Jackson Supreme Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of dark green pickling cucumbers. Cucumbers are best when harvested when 3 or 4" long. Excellent quality pickling variety. One of the most disease-resistant cucumbers on the market. Grows well in the Southern States of the USA. Excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU41-20 - Little Leaf Cucumber Seeds

57 days. Cucumis sativus. Open Pollinated. Little Leaf Cucumber. This compact plant produces high yields of 3 to 5" long emerald green colored cucumbers. It may be the highest yielding pickling cucumber on the market today, producing 25 to 30 cucumbers per plant! An excellent cucumber for salads and pickling. It is a parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper

crop. Perfect for container gardening. Does well under stress and adverse weather conditions. Heat Tolerant. Drought Tolerant, Cold Tolerant. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, hydroponics, greenhouses, market growers, and open field production. Developed in 1991 by the University of Arkansas, USA. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

CU13-20 - Marketmore 76 Cucumber Seeds

68 days. Cucumis sativus. Open Pollinated. Marketmore 76 Cucumber. The plant produces heavy yields of 8 to 10" long dark green cucumbers. Excellent slicing cucumber and can also be used to make dill pickles. Does well even under adverse weather conditions over a long season in hot or cool weather. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers.

Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 561148. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU113-20 - Marketmore 97 Cucumber Seeds

55 days. Cucumis sativus. Open Pollinated. Marketmore 97 Cucumber. The plant produces good yields of 9 to 11" long cucumbers. Excellent flavor and is perfect for salads or pickling when harvested at 3 to 5" long. Cucumbers are non-bitter and burpless. Tolerant to the striped cucumber beetle and the spotted cucumber beetle. One of the most disease-resistant varieties developed. Suitable for commercial growers.

An excellent choice for home gardens, market growers, and open field production. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: ALS, Ccu, CMV, DM, PM, PRSV, TLS, ULS, WMV, ZYMV.

CU132-10 - Mini-Me Cucumber Seeds

45 days. Cucumis sativus. (F1) Mini-Me Cucumber. This early maturing plant produces high yields of 3 ½" long sweet, bitter-free, and burpless cucumbers. This mini Beit Alpha is smooth and with shiny green skin. The flesh is crunchy and delicious, and the skin is so mild it does not have to be peeled. It is usually picked small for the best quality. It can be used for pickling or sliced in salads. Long shelf life.

Very disease-resistant cucumbers. It is a parthenocar[ic variety, producing only female flowers, and does not require pollination, making cultivation super easy. The plant continues to produce all season long. This is the high variety you find in supermarkets. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant. CMV, CVYV, DM, PM.

CU16-20 - National Pickling Improved Cucumbers

54 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6" long medium green cucumbers. Ideal for making dill pickles or eating fresh in salads. Can also be harvested when very tiny 1 to 2" for making little pickles. They are slightly tapered in shape to fit in a pickle jar. Excellent choice for home gardens and market growers. Developed by the National Pickle Packers Association. United States

Department of Agriculture, NSL 5746. Disease Resistant: Ccu, CMV.

CU15-20 - Muncher Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Muncher Cucumber. The plant produces heavy yields of 6 to 9" long cucumbers. A delicious burpless cucumber that is crisp and non bitter. Best when harvested when 4 to 6" long for pickling. Also can be eaten fresh straight from the garden or used in salads. Excellent for making pickles. An excellent choice for home gardens. Disease Resistant: CMV.

CU124-20 - Pick a Bushel Cucumbers

2014 All-America Selections Winner!

60 days. Cucumis sativus. (F1) Semi bush plant produces high yields of 3 to 6" long green cucumbers. These cucumbers can be picked when they are 3" long for gherkin size or left to grow into 6" long for use in salads. They are tasty with no bitterness. The semi-bush vines grow only 24" long, so they are great for growing in patio

containers as well as in small gardens. An excellent choice for home gardens. Heat Tolerant. Disease Resistant: Ccu, CGMMV, CMV.

CU69-20 - Raider Cucumbers

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of uniform dark green cucumbers. Excellent for salads or slicing. One of the earliestmaturing slicers on the market. A gynoecious hybrid (mostly female) variety that is great for Canada and the Northern United States. Suitable for home gardens and market growers. Disease Resistant: ALS, Ccu, CMV.

CU98-10 - Salad Bush Cucumber Seeds

1988 All-America Selections Winner!

57 days. Cucumis sativus. (F1) Salad Bush Cucumber. This early maturing compact bush plant produces good yields of 8" long by 2 ¼" wide glossy dark green cucumbers. Cucumbers are tender and crisp. This small plant is the perfect variety for growing indoors in containers and small gardens as it only uses 2 square feet of space. Also grows

CU96-20 - Rockingham Cucumbers

58 days. Cucumis sativus. (F1) The plant produces high yields of 8 ½" long dark green cucumbers. This cucumber is most appreciated by commercial growers because it produces nice dark green, smooth, and long cucumbers. Vines are strong and vigorous. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, Ccu, ALS, CMV, PM.

CU23-20 - Spacemaster 80 Cucumber Seeds

60 days. Cucumis sativus. Open Pollinated. Spacemaster 80 Cucumber. This compact bush-type plant produces heavy yields of 7 to 8" long nicely shaped dark green cucumbers. Excellent for pickling when small, and slicing when they get bigger. They are crisp and tasty. A great bush variety cucumber has amazing flavor with no bitterness. Ideal for containers, hanging baskets, or home gardens with limited

space. The plant has short vines, only 3 feet long! Also perfect for close commercial cropping. Also suitable for hydroponic gardening. Excellent choice for home gardens and market growers. Developed in 1980 by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: Ccu, CMV, DM, PM.

CU22-20 - Spacemaster Cucumbers

60 days. Cucumis sativus. Open Pollinated. This compact bush-type plant produces excellent yields of 6 to 8" long slender dark green cucumbers. Great for pickling when small, and slicing when they get bigger. The ultimate cucumber for vegetable gardens with limited space! Its vines are only 2 to 3 feet long. It is ideal for containers, hanging baskets, or small gardens with limited space. It is almost a daily ritual to keep

them picked since they grow so rapidly. Suitable for hydroponic gardening too. An excellent choice for home gardens. Developed by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, NSL 112204. Disease Resistant: Ccu, CMV.

CU104-10 - Speedway Cucumber Seeds

56 days. Cucumis sativus. (F1) Speedway Cucumber. This early maturing plant produces high yields of 8" long smooth straight dark green cucumbers. This cucumber variety is popular because of its earliness, its yields, and its disease resistance. This quality cucumber has tender skin and grows best if grown on trellis or stakes. One of the most disease resistant cucumbers on the market. Excellent for

home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU4-20 - Stonewall Cucumbers

53 days. Cucumis sativus. (F1) The plant produces high yields of 8 to 9" long straight dark green cucumbers. It has received high grades for quality, shape, size, and is the No. 1 cucumber variety for commercial production. Perfect for salads and slicing. Stores well. Agriculture researchers and commercial growers are very familiar with this top performer. One of the most diseaseresistant cucumbers on the market.

Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU34-20 - Straight Eight Cucumbers

1935 All-America Selections Winner!

63 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8" long dark green cucumbers. One of the bestslicing cucumbers on the market. It is an extremely dependable producing crop. If you had bad luck with other cucumber varieties last season, then this one this year. You will be giving them away to your family,

neighbors, and friends there are so many! Grows best if grown on trellis or stakes. Excellent choice for home gardens and market growers. A 1938 heirloom variety named for its perfectly straight 8" long cucumber. United States Department of Agriculture, NSL 5764. Disease Resistant: CMV.

CU126-20 - Super Max Cucumbers

50 days. Cucumis sativus. (F1) The plant produces high yields of 4" long dark green cucumbers. These quality cucumbers are perfect for making pickles. They are crunchy, never get soft or mushy, and are very flavorful. They have very few seeds too. This is an improved version of Supremo Cucumber. An excellent choice for home gardens, market growers, and commercial growers. Disease Resistant: CMV, PRSV, WMV, ZYMV.

CU26-10 - Sweet Slice Cucumber Seeds

63 days. Cucumis sativus. (F1) Sweet Slice Cucumber. This plant produces high yields of 9 to 12" long dark green cucumbers. They are sweet, bitter-free, burpless, crisp, tender, with thin skin, so thin it requires no peeling. Its superior quality gives it gourmet status. After a sample taste, customers know Sweet Slice is a cut above the rest. Excellent choice for home gardens and market growers. Disease Resistant: CMV, DM, PM, PRSV, WMV, ZYMV.

CU27-10 - Sweet Success Cucumber Seeds

1983 All-America Selections Winner!

58 days. Cucumis sativus. (F1) Sweet Success Cucumber. The plant produces good yields of 12" long seedless and burpless dark green cucumbers. This high quality cucumber has tender skin and grows perfectly straight if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety

for greenhouse and open field production. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CMV, TLS, WMV.

CU2-10 - Sweeter Yet Cucumber Seeds

48 days. Cucumis sativus. (F1) Sweeter Yet Cucumber. This early maturing plant produces high yields of 10 to 12" long dark green cucumbers. A dual-purpose non-bitter cucumber that can be used fresh in salads or pickled. Cucumbers are sweet, burpless, bitter-free, and their skins require no peeling. Compact semi-bush type plants produce continually all season long. One of the most disease resistant cucumbers on

the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: CMV, DM, PM, PRSV, ZYMV.

CU38-20 - Tendergreen Burpless Cucumbers

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6 to 8" long medium green cucumbers. It is crispy, tender, burpless, bitter-free, and acid-free. It has thin skin and doesn't need any peeling. Great for salads and for pickling when cucumbers are small. Does well in high soil moisture and also cold soil. Best when harvested when 3 to 6" long. An excellent choice for home gardens and market

growers. An heirloom dating back to the 1930s. United States Department of Agriculture, NSL 106653. Disease Resistant: CMV, DM, PM.

CU105-20 - Thunder Cucumbers

55 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 8 ½" long smooth glossy dark green cucumbers. A top commercial quality slicing variety with strong disease resistance. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, ZYMV.

CU92-10 - Turbo Cucumber Seeds

67 days. Cucumis sativus. (F1) Turbo Cucumber. The plant produces high yields of 9" long dark green slicing cucumbers. It is crisp and very delicious. This quality cucumber grows best if grown on trellis or stakes. Does well in the Northeast parts of the country. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

CU30-20 - Wisconsin SMR 58 Cucumbers

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 2 ½ to 6" long dark green cucumbers. Best for making dill pickles. Very crisp and sweet. You have to try this variety if you love making homemade pickles. It has a mild flavor that is perfect for soaking up spices when making pickles. One of the absolute best non-hybrid pickling cucumbers available. Grow on trellis or fence for straight

cucumbers. Excellent choice for home gardens and market growers. Developed by the University of Michigan in 1959 short seasons and Northern climates. United States Department of Agriculture, NSL 30808. Disease Resistant: Ccu, CMV.
