

## GW - Gray Wall Resistant Tomatoes

### TM195-20 - Mountain Delight Tomato

70 days. *Solanum lycopersicum*. (F1) Early maturing plant produces excellent yields of red tomatoes. They are firm and flavorful. Perfect for salads, slicing, and sandwiches. Excellent choice for home gardens and market growers. A variety developed by NC State University, NC, USA. Disease Resistant: V, FF, ALS, BER, GW. Determinate.

### TM84-20 - Mountain Fresh Plus Tomato

79 days. *Solanum lycopersicum*. (F1) Plant produces good yields of 8 to 12 oz red tomatoes. They are very sweet, very firm, smooth, and flavorful. Perfect for salads, slicing, and sandwiches. Crack resistant. Plant has good foliage protecting tomatoes from sun scald. Does well in cool or wet climates. It is the most widely grown market tomato in the East and Midwest. Good quality tomato used for commercial production. Great fresh market or chain store type. Excellent choice for home gardens, market growers, and open field production. A variety developed by Dr. Randy Gardner at North Carolina State University, NC, USA. Disease Resistant: V, FF, N, ALS, GW, BER. Determinate.
