

Peas

[PE33-25 - Tom Thumb Sweet Peas](#)

55 days. Pisum sativum. Open Pollinated. This dwarf plant produces good yields of sweet peas. Perfect fresh in salads, in soups, and used in cooking. Suitable for indoor or outdoor containers. Great for your patio or close to the kitchen. This variety is also suitable for cold frame production and for hydroponics gardening. This pea can take temperatures down to 20 F. Also known as Half Pint Pea. An excellent choice for home gardens. An English heirloom variety dating back to 1854.
