

Watermelons

[WM1-20 - Allsweet Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Allsweet Watermelon. The plant produces good yields of 25 lb watermelons. It has bright red flesh and few seeds. Very flavorful, extra sweet, and tough rind helps fruit from bruising. This variety holds long in the field. An excellent choice for home gardens and market growers. Disease Resistant: A, FW.

[WM3-20 - Black Diamond Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of large 40 to 75 lb watermelons. It has very flavorful bright red flesh. Tough rind helps fruit from bruising. The plant has large leaves which help prevent sunburning of watermelons. An excellent mid-season variety. Good shipper variety! Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and open field production. United States Department of Agriculture, NSL 5259.

[WM52-20 - Blacktail Mountain Watermelon Seeds](#)

75 days. Citrullus lanatus. Open Pollinated. Blacktail Mountain Watermelon. This early maturing plant produces good yields of high-quality 6 to 10 lb watermelons with dark green skin. The watermelon's scarlet red flesh is very sweet, crunchy, and juicy. Excellent storage variety - stores for up to 2 months! Heat Tolerant. High Humidity Tolerant. Developed by Glenn Drown of Sand Hill Preservation Center in Calamus, Iowa.

[WM26-20 - Cal Sweet Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 25 lb watermelons. This variety is one of the best-tasting watermelons on the market. It has bright red flesh. Suitable for home garden and market growers. United States Department of Agriculture, NSL 91783.

[WM76-20 - California Sweet Bush Watermelon Seeds](#)

2019 All-America Selections Winner!

90 days. Citrullus lanatus. (F1) California Sweet Bush Watermelon. This compact bush plant produces good yields of 10 to 12 lb round watermelons with dark green mottled stripes. It has very sweet and delicious crisp pink flesh. Great for fruit salads and picnics. Suitable for small gardens and containers as the plant only spreads from 14 to 18". Good foliage protection from the sun and resist sunburn. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: PM.

[WM4-10 - Carolina Cross Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Carolina Cross Watermelon. The plant produces huge watermelons as large as 200 pounds. Very flavorful crisp bright red flesh. The rind is striped and resistant to bruising. Impress your neighbors by growing a Giant Watermelon in your backyard. An excellent choice for home gardens.

[WM78-20 - Charlene Watermelons](#)

85 days. Citrullus lanatus. (F1) This plant produces high yields of 22 to 25 lb oblong watermelons with tough light green rind. This is a blocky Charleston Gray-type watermelon. It has very sweet red flesh. Great for fruit salads and picnics. Great shipper. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.

[WM54-20 - Charleston Grey No 133 Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces a very flavorful deep pink flesh watermelon. The watermelon is very sweet and averages 30 lbs. Exactly like the Charleston Grey, but with more resistance to Fusarium Wilt for Southern regions. An excellent choice for home gardens and market growers. A variety from South Carolina, USA. Disease Resistant: A, FW.

[WM16-20 - Citron Red Watermelons](#)

100 days. Citrullus lanatus. Open Pollinated. The plant produces high yields of small dark green watermelons. This is not your typical watermelon. It has white flesh with red seeds. The flesh is tasteless and is used to make preserves and sweetmeats that are added to fruitcakes, cookies, and puddings. It got its name from the unique appearance of its white flesh with bright red seeds! The best ones can be stored for up to a year. Drought-Tolerant. A variety that was widely grown in the 1930s and 1940s. An excellent choice for home gardens.

[WM88-10 - Cobb Gem Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces heavy yields of huge watermelons as large as 150 pounds. It has very sweet and juicy red flesh. The rind is striped and resistant to bruising. Impress your neighbors by growing a Giant Watermelon in your backyard. An heirloom variety dating back to the 1880s. An excellent choice for home gardens.

[WM6-20 - Congo Watermelons](#)

1950 All-America Selections Winner!

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 35 lb watermelons. It has a very tough rind that will resist bruising. This variety has very delicious sweet red flesh. Suitable for home garden and market growers. United States Department of Agriculture, NSL 5271. Disease Resistant: A.

[WM7-20 - Crimson Sweet Watermelon Seeds](#)

85 days. Citrullus lanatus. Open Pollinated. Crimson Sweet Watermelon. The plant produces good yields of 25 lb round watermelons. A very attractive watermelon with light and dark green striped rind. Its flesh is deep red and very sweet. The bottom side of the watermelon turns from white to cream as it matures. This variety is suitable for long-distance shipping. Perfect watermelon for your backyard or market growers. This is a cross between Peacock watermelon and Charleston Gray watermelon. United States Department of Agriculture, NSL 28693. Disease Resistant: A, FW.

WM45-20 - Crimson Sweet Yellow Watermelon Seeds

80 days. Citrullus lanatus. Open Pollinated. Crimson Sweet Yellow Watermelon. This early plant produces good yields of 10 lb striped watermelons. The bright yellow flesh is very favorable. Perfect addition to any gourmet fruit salad. Suitable for market growers and home gardens. An heirloom variety from the USA.

WM77-20 - Crispy Critter Watermelons

83 days. Citrullus lanatus. (F1) This early maturing plant produces good yields of 7 to 10 lb oblong watermelons with dark green mottled stripes. It has very sweet and delicious crisp red flesh. Great for fruit salads and picnics. Excellent storage variety. Great shipper. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.

WM8-20 - Desert King Watermelon Seeds

85 days. Citrullus lanatus. Open Pollinated. Desert King Watermelon. The plant produces good yields of watermelons. It has deep yellow flesh that is very delicious. One of the best drought tolerant watermelon varieties on the market. They hold on the vine a month or so after ripening and will not sunburn. Every watermelon lover should try this variety. Drought Tolerant. Excellent choice for home gardens and specialty market growers. United States Department of Agriculture, NSL 29603.

WM31-20 - Dixie Queen Watermelons

75 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 40 lb watermelons. It has exceptionally sweet crisp red flesh. Want an early harvest, then you have to try this variety. An excellent choice for home gardens and Farmer's Markets. United States Department of Agriculture, PI 612145.

WM30-20 - Dixielee Watermelons

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of great-tasting 20 to 30 lb watermelons. This is a quality round to oblong-shaped watermelon with superior red flesh and high sugar content of 10.8%. The rind color is light green with distinct, fairly narrow, dark green stripes. It has a tough rind which gives it good protection. Widely grown in Florida and other states. Good shipping variety for commercial growers. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and open field production. United States Department of Agriculture, PI 635731. Disease Resistant: A, FW.

WM9-20 - Florida Giant Watermelons

90 days. Citrullus lanatus. Open Pollinated. The plant produces beautiful 45 lb round deep green watermelons. This variety is one of the best round watermelons on the market. It has delicious bright red flesh. An excellent choice for home gardens and Farmer's Markets. United States Department of Agriculture, NSL 5282.

WM56-20 - Garrisonian Watermelons

85 days. Citrullus lanatus. Open Pollinated. The plant produces excellent yields of very flavorful bright rose flesh watermelon. It has light green skin with dark green rattlesnake markings. The watermelon is very sweet and averages 35 lbs. A popular melon is grown in the Southeast region. An excellent choice for home gardens and market growers. A variety from South Carolina, USA. Disease Resistant: A, FW.

WM47-20 - Georgia Rattlesnake Watermelons

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 40 lb watermelons. The watermelon is light green with darker stripes. The dark pink flesh is very sweet and crisp. One of the very best tasting watermelons ever! An heirloom variety from the USA.

[WM87-20 - Golden Honey Watermelons](#)

85 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 30 lb watermelons with dark green rind and light green stripes. The beautiful bright yellow flesh is very sweet and delicious. Perfect addition to any gourmet fruit salad. Suitable for home gardens and market growers. A variety from the USA.

[WM17-20 - Golden Midget Watermelons](#)

70 days. Citrullus lanatus. Open Pollinated. This early maturing plant produces good yields of small 3 lb golden yellow watermelon with salmon-pink flesh. It is very sweet and flavorful. A cross between a New Hampshire Midget and Pumpkin Rind. The watermelon turns golden yellow when fully ripe. Perfect for picnics! This is a very early producing variety that was introduced in 1959. An excellent choice for home gardens and specialty market growers. A variety from the USA.

[WM27-20 - Greybelle Watermelons](#)

80 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of nearly 15 lb round watermelons. It has a grey-green rind. The watermelons have dark red flesh and are very sweet and delicious. Resists sunburn. Drought-Tolerant. An excellent choice for home gardens and market growers. An heirloom variety from the USA. Disease Resistant: A, FW.

[WM74-5 - Harvest Moon Watermelons \(Seedless\)](#)

2013 All-America Selections Winner!

90 days. Citrullus lanatus. (F1) The plant produces high yields of 18 to 20 lb elongated round watermelons with dark green rind with freckles and splotches of bright yellow, similar to the Moon and Stars Watermelons. It has many advantages - it is seedless, ripens earlier, has higher yields, shorter vines, and tastes better! It has crisp pinkish-red red flesh. It is the first-ever hybrid, triploid seedless watermelon to ever win the All-America Selection Award! This is perfect for picnics. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Harvest Moon as a pollinator. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

[WM12-20 - Jubilee Improved Watermelon Seeds](#)

95 days. Citrullus lanatus. Open Pollinated. Jubilee Improved Watermelon. The plant produces good yields of 35 lb long light green skin watermelon with dark green stripes. The watermelon's red flesh is very sweet. Grows well in warm temperatures. Perfect for backyard home garden. This is an improved version of the Jubilee Watermelon. An excellent choice for home gardens and market growers. Disease Resistant: A, FW.

[WM65-20 - Jubilee Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Jubilee Watermelon. The plant produces high yields of 35 lb oblong watermelons with light green skin and dark green stripes. It has very sweet bright red flesh. One of the most popular watermelons in the United States. It thrives in heat and humidity and adapts well to various climates. Perfect for backyard home garden! A good shipper variety! Heat Tolerant. High Humidity Tolerant. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety was developed by the Florida Agricultural Experiment Station in 1963, United States Department of Agriculture, NSL 42803. Disease Resistant: A, FW.

[WM57-20 - Klondike Blue Ribbon Watermelons](#)

90 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 30 lb scarlet red watermelons. It has a light green rind with dark green stripes. This variety is one of the best-tasting watermelons on the market. It is very sweet. Sunburn resistant! Disease Resistant: A, FW.

[WM60-20 - Legacy Watermelon Seeds](#)

85 days. Citrullus lanatus. Open Pollinated. Legacy Watermelon. The plant produces high yields of very flavorful 25 lb watermelons. The watermelons are very sweet and have deep red firm flesh and beautiful dark green striped rind. Resist sunburn. Excellent extended shelf life variety. Good shipper variety. Suitable for home gardens and market growers. United States Department of Agriculture, PI 597887. Disease Resistant: FW.

[WM23-10 - Mickylee Watermelon Seeds](#)

88 days. Citrullus lanatus. Open Pollinated. Mickylee Watermelon. The plant produces good yields of very flavorful 15 lb watermelons. The watermelons are very sweet and have bright red flesh. This is a single serving size watermelon. The plant is capable of producing 5 melons per vine. Excellent shelf life. Great for home garden and market growers. United States Department of Agriculture, PI 601307.

[WM14-20 - Moon & Stars Cherokee Watermelons](#)

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of deep green 25 lb to 45 lb elongated watermelons with yellow dots. Some dots are large and look like moons and some dots are small and look like stars. The watermelons are 24" long. The leaves are also spotted. The bright pink flesh is very sweet and flavorful. Drought Tolerant. Keep the plants well-watered to achieve uniform watermelons. An heirloom variety from the USA.

[WM62-20 - Moon & Stars Red Flesh Watermelons](#)

105 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 40 lb deep green watermelon with yellow dots. Some dots are large, look like moons, and some dots are small, and looks like stars. The red flesh is very sweet and flavorful. An excellent choice for home gardens. An heirloom variety from the USA.

[WM10-20 - Moon & Stars Van Doren Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Moon & Stars Van Doren Watermelon. The plant produces good yields of deep green watermelon with yellow dots. Some dots are large and look like moons and some dots are small and look like stars. The leaves are also spotted. The pink flesh is very sweet and flavorful. An excellent choice for home gardens. This 1930 heirloom variety is from Merle Van Doren's farm near Macon, Missouri, USA. It had been originally brought from Tennessee, USA.

[WM32-20 - Mountain Sweet Yellow Watermelon Seeds](#)

100 days. Citrullus lanatus. Open Pollinated. Mountain Sweet Yellow Watermelon. The plant produces good yields of large 35 lb dark green watermelons with light green markings. The dark yellow flesh is very sweet. The family will love this variety! Try growing yellow, red, pink, red, and white watermelons for a colorful gourmet fruit salad. An excellent choice for home gardens and Farmer's Markets. A variety from the USA.

[WM79-20 - Ole Watermelon Seeds](#)

85 days. Citrullus lanatus. (F1) Ole Watermelon. This plant produces good yields of 22 to 25 lb blocky oblong watermelons with tough dark green striped rind. It has very sweet crisp red flesh. Great for fruit salads and picnics. Great shipper. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.

[WM68-5 - Orange Crisp Watermelon Seeds \(Seedless\)](#)

92 days. Citrullus lanatus. (F1) Orange Crisp Watermelon. The plant produces good yields of 14 to 18 lb watermelons with light green rind and contrasting dark green stripes. The plant produces round to oval watermelons. It has very sweet and firm vibrant orange flesh. This is perfect for making a gourmet fruit salad. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Orange Crisp as a pollinator. It is an excellent shipping variety with a good shelf life. Good shipper as it holds up well for long-distance shipping. Heat Tolerant. High Humidity Tolerant. Good foliage protection from the sun and resisting sunburn. It is also resistant to a hollow heart. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: FW, WMV.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

[WM58-20 - Peacock Improved Watermelons](#)

90 days. Citrullus lanatus. The plant produces good yields of 25 lb orange-red flesh watermelons. It has a dark green rind. Great shipper. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. This heirloom variety is widely grown in California and the Southwest region. Disease Resistant: A, FW.

[WM41-10 - Orangelo Watermelon Seeds](#)

90 days. Citrullus lanatus. Open Pollinated. Orangelo Watermelon. The plant produces heavy yields of large 30 lb watermelons. This is one of the best orange flesh watermelons on the market. It has solid deep orange flesh that is very crisp, very sweet, and very favorable. Vines are vigorous and produce heavy yields of watermelons that have light green and dark green stripes. An excellent choice for home gardeners and market growers. Try growing pink, red, white, and yellow watermelons to make a great-tasting watermelon salad.

[WM80-10 - Pinata Watermelons](#)

85 days. Citrullus lanatus. (F1) This plant produces high yields of 22 to 25 lb oblong Allsweet type watermelons with dark green striped rind. It has very sweet crisp deep red flesh with no cracks or splits in the heart. Great for fruit salads and picnics. Excellent storage variety. Great shipper. Good foliage protection from the sun and resist sunburn. Does well under adverse weather conditions. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.

[WM81-20 - Pronto Watermelons](#)

80 days. *Citrullus lanatus*. (F1) This early maturing plant produces high yields of 20 to 24 lb oblong watermelons with green striped rind. It has very sweet red flesh. Great for fruit salads and picnics. Excellent choice for dry land planting! Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: FW.

[WM66-5 - Red Rock Watermelon Seeds \(Seedless\)](#)

85 days. *Citrullus lanatus*. (F1) Red Rock Watermelon. The plant produces high yields of 15 to 17 lb dark green striped watermelons. It has very sweet bright red flesh with high Brix content. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Red Rock as a pollinator. It is an excellent shipping variety with a good shelf life. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: A, FW.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

[WM82-5 - Sangria Watermelons](#)

87 days. *Citrullus lanatus*. (F1) This plant produces good yields of 22 to 26 lb elongated watermelons with dark green rind with narrow light green stripes. It has very sweet red flesh. Great for fruit salads and picnics. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA.

[WM18-20 - Sugar Baby Watermelon Seeds](#)

75 days. *Citrullus lanatus*. Open Pollinated. Sugar Baby Watermelon. This early maturing plant produces good yields of small 8 to 10 lb oval watermelons. The red flesh is very sweet and flavorful. Just the right size to fit in your refrigerator. It has a tough rind and resists cracking. This bush plant is suitable for small gardens. It grows well in the North, as it's one of the earliest watermelons available. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. An 1859 heirloom variety. United States Department of Agriculture, NSL 5319.

[WM83-5 - Summer Flavor 720 Watermelons](#)

85 days. *Citrullus lanatus*. (F1) This plant produces high yields of 28 to 30 lb blocky oblong Nunhem's Jubilee type watermelons with a light to medium green rind with narrow dark stripes rind. It has firm crisp bright red flesh. The watermelons have an irresistible aroma when cut. Great for fruit salads and picnics. Always a great seller at Farmer's Markets! An excellent choice for home gardens, market growers, and commercial production. A variety from the USA. Disease Resistant: A.

[WM70-5 - Super Seedless 7167 Watermelons \(Seedless\)](#)

90 days. *Citrullus lanatus*. (F1) The plant produces high yields of 16 to 20 lb oval watermelons with light green rinds with wide dark stripes and very narrow light green motley streaks. It is very flavorful with crispy deep red flesh. This is perfect for picnics. To produce seedless watermelons, a pollinator is required. We suggest growing Sugar Baby watermelons alongside Super Seedless 7167 as a pollinator. Good foliage protection from the sun with very large leaves. Always a great seller at Farmer's Markets! An excellent choice for home gardens and market growers. Disease Resistant: A.

Seedless Watermelons Require Special Attention. The seeds must be started indoors and the Miracle-Gro Seed Starting Mix must be kept at a constant 85 F. Start the seeds at the same time you plant the Sugar Baby pollinator.

[WM59-20 - Sweet Princess Watermelons](#)

95 days. Citrullus lanatus. Open Pollinated. The plant produces good yields of 30 lb deep pink flesh watermelons. It has a juicy sweet taste. It has a yellow-green rind with a medium-green stripe. This variety has a thin tough rind making it a good shipper variety. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: A, FW.

[WM44-20 - Tendergold Watermelon Seeds](#)

80 days. Citrullus lanatus. Open Pollinated. Tendergold Watermelon. The plant produces good yields of medium size 28 lb watermelons. This is one of the best yellow flesh watermelons on the market. It has solid flesh that is very crisp, very sweet, and very flavorful. The yellow flesh turns more orange as it ripens and the taste improves with time. Keeps well and will last 7 - 20 days longer after ripening. Grow pink, red, white, and yellow watermelons to make a great tasting salad. An excellent choice for home gardeners and market growers.
