

# Tomatillo

## TL13-100 - Grande Rio Verde Tomatillo Seeds

90 days. Physalis ixocarpa. Open Pollinated. Grande Rio Verde Tomatillo. The plant produces heavy yields of 3 oz green tomatillos. This Mexican husk tomato is great for salsa verde. Tomatillos are fully ripe when they fall from the plant. A very popular in the Southwest United States for making salsas when combined with fresh hot peppers. Suitable for home garden and market growers.

## TL6-50 - Green Husk Tomatillo

90 days. Physalis ixocarpa. Open Pollinated. The plant produces excellent yields of 2" long by 2" wide tomatillo. The fruit is wrapped with a green papery husk. The fruit is ripe when it burst through the husk. Mix with hot peppers to make Mexican green sauce. Also used to make salsa and other Mexican dishes. Wash thoroughly with mild soap to remove the sticky coating on the outside of the fruits. An excellent choice for home gardens and market growers. A variety from Mexico. Indeterminate.

## TL10-20 - Mexican Strain Tomatillo

65 days. Physalis ixocarpa. Open Pollinated. This early maturing plant produces heavy yields of large 2" round Mexican tomatillo. Mexican Strain has a more savory flavor than other varieties and is a preferred variety for many Mexican dishes! Excellent for making salsa verde and chili Verde. Tomatillos are fully ripe when it falls from the plant. Suitable for home garden and market growers. A variety from Mexico.

## TL8-100 - Purple de Milpa Tomatillo Seeds

70 days. Physalis ixocarpa. Open Pollinated. Purple de Milpa Tomatillo This early maturing plant produces good yields of small to medium size tomatillos. This variety was grown unattended in a cornfield by a family in Mexico. It stores fresh for several weeks. Excellent for making salsa. They are surrounded by a papery husk that turns from green to brown as they ripen and splits open when they are ready to harvest. An heirloom variety from Mexico.
