

# Cucumbers

## CU64-20 - Bianco Lungo Cucumbers

58 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 7 ½ to 9" long shiny white-skinned cucumbers. Excellent for making dill pickles and fresh in salads. An excellent choice for home gardens. A variety from Italy.

## CU65-20 - Tortarello Verde Scuro Cucumbers

58 days. Cucumis flexuosus. Open Pollinated. The plant produces heavy yields of 9 to 12" long dark green cucumbers. Very flavorful and delicious. It is really a melon but tastes like cucumber and is used like a cucumber. Great for salads and slicing cucumber. An excellent choice for home gardens. A variety from Italy.
