

Okra

[OK15-20 - Alabama Red Okra](#)

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces good yields of red okra. This okra is delicious when fried, and adds color and unique flavor added to salads when young. Makes some of the best fried okra. Harvest regularly when 4 to 6" long. An heirloom variety from Alabama, USA. An excellent choice for home gardens.

[OK23-10 - Beck's Gardenville Okra](#)

80 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of okra. Very easy to grow. The pods are ready to pick when they snap off the stalks easily. Drought-Tolerant. An heirloom variety from San Antonio, Texas, USA.

[OK19-50 - Cajun Jewel Okra](#)

53 days. *Abelmoschus esculentus*. Open Pollinated. This early producing plant produces high yields of 7 to 8" long okra. It is a spineless variety that is great for fried okra and making gumbo. Popular in the Southern parts of the USA. An excellent choice for home gardens and market growers. A 1950s heirloom variety from the USA.

[OK24-50 - Clemson Spineless 80 Okra](#)

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces high yields of flavorful okra. Leaves are spineless making them easier to harvest. Taller, more open, and more productive than the Clemson Spineless Okra. Best if picked when 3 to 4" long. Used for making fried okra, soups, stews, meats dishes, and gumbos. An excellent choice for home gardens, farmer's markets, and market growers. Developed in 1980 by Clemson University, Clemson, South Carolina, USA.

[OK4-50 - Clemson Spineless Okra](#)

[1939 All-America Selections Winner!](#)

56 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of flavorful 9" long dark green okra. It is still the most popular variety on the market. Leaves are spineless making it easier to harvest. Best if picked when 3" long. Used in making fried okra, gumbo, soups, stews, and meats dishes. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, NSL 26508.

[OK13-50 - Cow Horn Okra Seeds](#)

60 days. *Abelmoschus esculentus*. Open Pollinated. Cow Horn Okra. The plant produces high yields of 14" long okra. The large pods remain spineless and tender up to 10" long, but are best when the pods are picked at 6" long. Great for making fried okra and gumbo. An excellent choice for home gardens and market growers. An heirloom variety dating back to pre-1865.

OK9-50 - Dwarf Long Green Pod Okra Seeds

50 days. *Abelmoschus esculentus*. Open Pollinated. Dwarf Long Green Pod Okra. This early maturing plant produces heavy yields of 7 to 8" long okra. This spineless variety produces earlier and higher yields than other varieties. A great choice for Northern growers because it doesn't require as long of a hot growing season. Suitable for Southern and Northern regions. An excellent choice for home gardens and market growers.

OK5-50 - Emerald Okra

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of 6 to 8" long dark green okra. The pods are thick-walled, smooth, tender, and spineless. Stay tender even when very large. Best to harvest when 4" long. Retains color when frozen or canned. Perfect for soups, stews, fried, or boiled. Also known as Emerald Green Velvet Okra. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A 1950 heirloom variety developed by the Campbell Soup Company, Riverton, New Jersey, USA. United States Department of Agriculture, PI 675122

OK14-50 - Hill Country Red Okra Seeds

70 days. *Abelmoschus esculentus*. Open Pollinated. Hill Country Red Okra. The plant produces good yields of 3 to 5" long green and red okra. The pods are green with red tips and red ribs. Great for making fried okra, soups, stews, and gumbo. An excellent pickling variety. Drought Tolerant. Excellent choice for home gardens. An heirloom variety from Texas, USA.

OK18-50 - Jade Okra

70 days. *Abelmoschus esculentus*. Open Pollinated. This early producing plant produces high yields of dark green okra. The okra stays tender up to 6" long. Great for making fried okra, soups, stews, and gumbo. An excellent choice for home gardens. Developed in 1991 by the University of Arkansas, Arkansas, USA.

OK30-50 - Jambalaya Okra

50 days. *Abelmoschus esculentus*. (F1) This extra-early maturing plant produces high yields of 6 to 7" long shiny dark green okra. Great for making fried okra, soups, stews, gumbo, and casseroles. This compact plant is just the right size for a home garden. Suitable for containers. An excellent choice for home gardens.

OK3-25 - Louisiana Green Velvet Okra Seeds

1941 All-America Selections Winner!

58 days. *Abelmoschus esculentus*. Open Pollinated. Louisiana Green Velvet Okra. This early maturing plant produces good yields of 5 to 8" long spineless dark green okra. The okra remains tender when large. Retains its vibrant color when cooked. This variety does well where temperatures and humidity are high. Excellent choice for home gardens and market growers. Developed by the Louisiana State University, Louisiana, USA. United States Department of Agriculture, PI 675127.

OK25-50 - Perkins Dwarf Long Green Okra Seeds

55 days. *Abelmoschus esculentus*. Open Pollinated. Perkins Dwarf Long Green Okra. This early maturing plant produces high yields of flavorful 8 to 9" long okra. An extra-large pod that is tender and very delicious. Great for making fried okra, soups, stews, gumbo, and casseroles. A perfect type for canning. An excellent choice for home gardens. An heirloom variety.

OK12-50 - Perkins Mammoth Long Okra

55 days. *Abelmoschus esculentus*. Open Pollinated. This early maturing plant produces good yields of 6" long green okra. Excellent for soups, stews, gumbo, and fried or boiled. Perfect canning variety.

OK2-50 - Red Burgundy Okra Seeds

1988 All-America Selections Winner!

60 days. *Abelmoschus esculentus*. Open Pollinated. Red Burgundy Okra. The plant produces high yields of 6 to 8" long burgundy okra. This variety has deep red colored stems with green leaves and would be great for an ornamental plant. Pods can be harvested up to 8" long and still remain tender. Great for making fried okra, soups, stews, gumbo, and casseroles. An excellent choice for home gardens and specialty market growers. Developed by Leon Robbins at the Clemson University, Clemson, South Carolina, USA.

OK27-10 - Red Velvet Okra Seeds

70 days. *Abelmoschus esculentus*. Open Pollinated. Red Velvet Okra. The plant produces good yields of beautiful 5" long scarlet red okra. This variety has deep red colored stems with green leaves. Best when harvested when pods are 3" to 5" long when still tender. A variety from the USA.

OK22-50 - Silver Queen Okra Seeds

80 days. *Abelmoschus esculentus*. Open Pollinated. Silver Queen Okra. The plant produces huge yields of 7" long whitish-green okra. Very tender when picked young. Great for making fried okra, soups, stews, gumbo, and casseroles. Excellent choice for home gardens.
