

Peppers (Sweet)

SP115-10 - Corbaci Pepper Seeds

75 days. Capsicum annuum. Open Pollinated. Corbaci Pepper. The plant produces heavy yields of 12" long by ¾" wide sweet peppers. Peppers turn from light green to yellow, to orange, to red when mature. An excellent drying pepper for making chili powder. One of the world's most productive plants produces over 650 peppers from 7 plants. Plants should be staked as hefty yields will cause the plants to fall over. Also known as Sari Tatli Sivri Pepper. An heirloom variety from Turkey.
