

## Peppers (Sweet)

### [SP310-20 - Red Cheese Sweet Peppers](#)

60 days. Capsicum annuum. Open Pollinated. This early maturing plant produces good yields of 3" wide flat and round-shaped sweet peppers. Its thick flesh is excellent for baking, broiling, or stuffing. Plants have a strong resistance to insects. An heirloom variety from Spain.

### [SP95-20 - Tennessee Cheese Pepper Seeds](#)

82 days. Capsicum annuum. Open Pollinated. Tennessee Cheese Pepper. The plant produces good yields of apple or tomato-shaped sweet peppers. Peppers have thick walls and turn from green to red when mature. Excellent for making high-quality paprika. Also good stuffing and pickling pepper. A heirloom variety from a family of Kingston, Tennessee, USA. A variety originally from Spain.
