

Leeks

LK3-250 - Giant Musselburg Leeks

105 days. Allium ampeloprasum. Open Pollinated. The plant produces high yields of huge leeks. It is pure white, very sweet, delicious, and tender. It grows to 2 to 3" in diameter! Used in soups, stews, and salads. It is very winter hardy. One of the best winter hardy leeks you can grow. Also known as Scotch Flag Leek. Excellent choice for home gardens and market growers. An 1834 heirloom from Edinburgh, Scotland. United States Department of Agriculture, PI 546065.

LK5-100 - Prizetaker Leeks

110 days. Allium ampeloprasum. Open Pollinated. The plant produces high quality and very tall leeks. The stalks are pure white and retain their flavor even with their extremely large size. A cold-resistant variety that holds well over the winter. Used in soups, stews, and salads. Also known as Lyon Leek. An excellent choice for home gardens. An 1800s heirloom variety from England.
