## [SQ96-20 - Yugoslavian Fingers Squash](#)

90 days. Cucurbita pepo. Open Pollinated. The plant produces good yields of 4 to 5 lb creamy white squash with 8 to 10 finger-like points that extend towards the blossom end. A very flavorful gourmet squash. An excellent choice for home gardens, farmer's markets, and specialty market growers. An 1885 heirloom variety from Yugoslavia. A winter squash variety.
