

Tomato

TM694-20 - Crnkovic Yugoslavian Tomato

85 days. *Solanum lycopersicum*. Open Pollinated. The plant produces heavy yields of 1 to 2 lb pink beefsteak tomatoes. They are sweet and very delicious. Perfect for sandwiches, salads, and slicing. Crack Resistant. An excellent choice for home gardens. An heirloom variety from Yasha Crnkovic of Yugoslavia. Indeterminate.

TM482-20 - Grightmire's Pride Tomato

65 days. *Solanum lycopersicum*. Open Pollinated. The early maturing plant produces high yields of large pinkish-red heart-shaped tomatoes. They are very sweet, meaty, juicy, and flavorful. Perfect for sandwiches, salads, slicing, and making sauces. Low acidity variety. An excellent choice for home gardens. A variety from Yugoslavia. Indeterminate.
