

Cucumbers

[CU25-20 - Suyo Long Cucumber Seeds](#)

65 days. Cucumis sativus. Open Pollinated. Suyo Long Cucumber. The plant produces excellent yields of thin 12 to 18" long cucumbers. It is delicious, tender, crispy, burpless, and non-bitter. It can be picked at any stage, from very young to fully mature. Excellent for salads and bread and butter pickles. Grow it on a trellis for straight cucumbers. This variety grows well in hot weather. An excellent choice for home gardens. An heirloom variety from China.
