## [CU25-10 - Suyo Long Cucumber Seeds](#)

65 days. Cucumis sativus. Open Pollinated. Suyo Long Cucumber. The plant produces excellent yields of thin 12 to 18" long cucumbers. It is delicious, tender, crispy, burpless, and non bitter. It can be picked at any stage, from very young to fully mature. Excellent for salads and bread and butter pickles. Grow it on a trellis for straight cucumbers. This variety grows well in hot weather. An excellent choice for home gardens. An heirloom variety from China.
