Buy and keep a supply of kits to provide for family security during times of uncertainty in the food supply chain. The kits are moisture-proof and come in a resealable bag.

[CF16-25 - Graffiti Cauliflower](#)

80 days. Brassica oleracea. (F1) The plant produces large 7 to 8" heads of bright purple cauliflower. The color is retained when cooked. Great raw, boiled, steamed, or stir-fried. Tip: Adding a few drops of lemon to the water helps prevent color fading when cooked. Adds color to your salads and gourmet dishes. Heads need full sunlight to obtain full purple color so no need to wrap heads. A must for any specialty market. An excellent choice for home gardens and market growers.

[BR16-100 - Romanesco Italia Broccoli/Cauliflower](#)

75 days. Brassica oleracea. Open Pollinated. The plant produces good yields of lime green cauliflower/broccoli. This is a unique Italian variety with a better taste and texture than other cauliflower/broccoli. It is excellent raw or cooked, it boasts a milder, sweeter flavor than white cauliflower. It has beautiful apple green spiraling buds and is especially well adapted to the north. An excellent choice for home gardens. An heirloom variety from Italy. United States Department of Agriculture, PI 462221.

[CF6-50 - Snow Crown Cauliflower](#)

[1975 All-America Selections Winner!](#)

50 days. Brassica oleracea. (F1) This early maturing plant produces heavy yields of 7 to 8" heads of white cauliflower. Terrific quality and very flavorful. Great fresh or cooked. Leaves grow upright, protecting heads from sun scorch. It matures early and produces heads even under adverse conditions. Top choice of cauliflower growers. An excellent choice for home gardens and market growers. United States Department of Agriculture, G 24611.

[CF15-100 - Snowball Self-Blanching Cauliflower](#)

60 days. Brassica oleracea. Open Pollinated. The plant produces large 6 to 9" heads of white cauliflower. Great freezing variety. The heads are pure white and the leaves curl upright. The leaves will self wrap during cool weather, but will not in warm weather. Good for both early and late season crops. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, PI 225853.

CF8-250 - Snowball Y Improved Cauliflower

68 days. Brassica oleracea. Open Pollinated. This early maturing plant produces 6 to 8" heads of pure white cauliflower. A good freezer variety. This is a self-blanching type variety as the leaves curl around heads protecting them from the sun. This cauliflower is known for vigorous and rapid growth and long harvest. It's Suitable for both spring and fall plantings. Frost Tolerant. Excellent choice for home gardens and market growers. An heirloom was introduced by Ferry-Morse Seed Company in 1947. United States Department of Agriculture, NSL 6229.

CF17-25 - Veronica Cauliflower

78 days. Brassica oleracea. (F1) The plant produces 6 to 8" heads of lime green cauliflower. The heads have pointed spiral pinnacles. It is sweeter and milder than other varieties with a nutty taste. Excellent raw, cooked, or pickled. Heat-Tolerant. Best if planted in summer for fall harvest. Also known as Veronica Romanesco Cauliflower. An excellent choice for home gardens. Disease Resistant: FW, FY.

CF12-100 - Violetta Italia Cauliflower

85 days. Brassica oleracea. Open Pollinated. The plant produces large heads of purple cauliflower. Delicious raw, cooked, or steamed. Turns green when cooked. This purple variety also boasts high levels of anthocyanin, which can slow clotting and prevent heart disease. An excellent choice for home gardens. An heirloom variety from Italy.
