

Tomato

TM499-20 - Ananas Noir Tomato

85 days. *Solanum lycopersicum*. Open Pollinated. The plant produces heavy yields of 1 to 1 ½ lb bi-colored dark purple and green beefsteak tomato with pink-red splotches and a touch of yellow. The interior color is a mix of pink, red, green, and yellow colors. They are very sweet, meaty, juicy, and flavorful. It has a rich full tomato flavor. Perfect for salads, slicing, culinary creations, and tomato sauce. Also known as Black Pineapple Tomato. Excellent choice for home gardens. This tomato was introduced by Pascal Moreau, a Belgian horticulturist, in 2005. Indeterminate.
