

Lettuce

LC45-750 - All Year Round Lettuce

65 days. *Lactuca sativa*. Open Pollinated. The plant produces good yields of medium green butterhead lettuce. It is crisp and flavorful. This variety can be sown in most locations from March through August for a nearly year-round harvest. Slow to bolt. Does well in hot and cold weather! The very reliable plant does well even in dry weather. Cold Tolerant. Heat Tolerant. Drought Tolerant. Suitable for greenhouse production. An excellent choice for home gardens, greenhouses, market growers, and open field production. A pre-1870s heirloom variety. United States Department of Agriculture, PI 536694.

LC26-750 - Black Seeded Simpson Lettuce Seeds

45 days. *Lactuca sativa*. Open Pollinated. Black Seeded Simpson Lettuce. This early maturing plant produces excellent yields of leaf-type lettuce. Very flavorful and of superb quality. This is one of the most popular leaf lettuce varieties on the market. Its frilled crumpled leaves are crisp, tender, and very flavorful. The crisp leaves are perfect for salads and garnishes. Can grow as baby lettuce in 28 days. It grows best in cool weather. It withstands heat, drought, and light frost. Slow to bolt. Cold Tolerant. Heat Tolerant. Drought Tolerant. Excellent choice for home gardens. An heirloom variety dating back to 1850. United States Department of Agriculture, PI 536700. Disease Resistant: DM, LD, TB.

LC27-750 - Bronze Mignonette Lettuce

65 days. *Lactuca sativa*. Open Pollinated. The plant produces excellent yields of flavorful butterhead lettuce with frilled leaves. The bronze-green leaves are delicious. Excellent for salads and garnishes. This small variety is ideal for baby lettuce. Heat Tolerant. Drought Tolerant. Slow to bolt. Excellent choice for home gardens and specialty market growers. An heirloom variety dating back to 1898. United States Department of Agriculture, PI 536746.

LC5-750 - Buttercrunch Lettuce

1963 All-America Selections Winner!

65 days. *Lactuca sativa*. Open Pollinated. The plant produces high yields of dark green butterhead lettuce. It has a mild buttery-flavored taste with no bitterness. The broad green leaves are delicious, but the best part is the heart of loosely folded leaves and thick, crisp, tender ribs. Great for salads and garnishes. Heat Tolerant. Slow to bolt. Suitable for greenhouse production. An excellent choice for home gardens, greenhouses, and market growers. Developed by George Raleigh of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 536804.

LC11-750 - Cimmaron Lettuce

65 days. *Lactuca sativa*. Open Pollinated. The plant produces excellent yields of beautiful red romaine lettuce. Leaves are loosely folded on heads. Perfect for salads and garnishes. One of the slowest to bolt lettuce on the market. Good for spring, summer, and fall planting as it's cold-hardy and also tolerates heat. Cold Tolerant. Heat Tolerant. An 18th-century heirloom variety. An excellent choice for home gardens.

LC57-750 - Freckles Lettuce

55 days. *Lactuca sativa*. Open Pollinated. This early-maturing plant produces excellent yields of flavorful green romaine lettuce splashed with red speckles. Perfect for Caesar salads and garnishes. Harvest in 28 days for gourmet salads. Heat Tolerant. Bolt Tolerant. An excellent choice for home gardens and specialty market growers. An heirloom variety from the USA.

LC28-750 - Grand Rapids Lettuce

45 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces high yields of large bright green leaf-type lettuce. Leaves are frilled, crinkled, and crisp. Perfect for sandwiches, salads, and garnishes. This is a quick-growing variety. Heat Tolerant. Slow to bolt. Suitable for greenhouse production. Excellent choice for home gardens, greenhouses, market growers, and open field production, and hydroponics gardening. An heirloom variety dating back to 1898. United States Department of Agriculture, PI 536719. Disease Resistant: TB, V.

LC17-750 - Great Lakes 118 Lettuce Seeds

1944 All-America Selections Winner!

75 days. *Lactuca sativa*. Open Pollinated. Great Lakes 118 Lettuce. The plant produces high yields of large crisphead lettuce. This very early strain of the Great Lakes Lettuce is used mainly in California for harvest during warmer months. The standard for commercial growers for decades. Excellent flavor. The crisp leaves are perfect for sandwiches, salads, and garnishes. Very well adapted to hot and adverse conditions. Heat Tolerant. Excellent choice for home gardens, market growers, and open field production. A 1948 heirloom variety developed by Associated Seed Growers, New Haven, Connecticut, USA. United States Department of Agriculture, PI 536810. Disease Resistant: TB.

LC53-750 - Great Lakes Mesa 659 Lettuce

83 days. *Lactuca sativa*. Open Pollinated. The plant produces high yields of large crisphead lettuce. It is stronger, larger, and more uniform than other Great Lakes varieties. One of the most widely planted of all the Great Lake types by commercial growers. This is the type you find in your grocery stores. Very flavorful. The crisp leaves are perfect for sandwiches, salads, and garnishes. Perfect for fall planting as it is resistant to cold damage. Does well in the South and Southwest regions. Resistant to sunburn. Very slow to bolt! Heat Tolerant. Excellent choice for home gardens, market growers, and open field production. United States Department of Agriculture, PI 536733. Disease Resistant: TB, TMV.

LC29-750 - Green Ice Lettuce

45 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces high yields of glossy dark green loose-leaf type lettuce. Leaves are frilled, crinkled, and crisp. It is among the earliest, yet lasts well into summer, thanks to superior heat tolerance. Heat Tolerant. You can have multiple harvests with this variety. Slow to bolt. Perfect for salads and garnishes. Excellent choice for home gardens. An heirloom was developed by Burpee in the 1960s. United States Department of Agriculture, PI 536848.

LC46-750 - Kagraner Sommer Lettuce

58 days. *Lactuca sativa*. Open Pollinated. The plant produces good yields of butterhead lettuce. It has a mild buttery flavor. This is a very hardy plant that is slow to bolt in the summer heat. Does well in hot weather! Heat Tolerant. Also known as Butter Bow Head Lettuce. Excellent choice for home gardens. A variety from Germany. United States Department of Agriculture, PI 634680.

LC50-750 - Little Gem Lettuce

50 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces good yields of small romaine lettuce. This refined variety has a superb flavor and can be served whole. The heads are tightly wrapped and are sweet and crunchy. Heat-Tolerant. An excellent choice for home gardens and specialty market growers. An 1880 heirloom variety from France. United States Department of Agriculture, PI 617959. Diseases Resistant: V.

LC18-750 - Merveille des Quatre Saisons Lettuce

48 days. *Lactuca sativa*. Open Pollinated. This early-maturing plant produces good yields of flavorful red-tinted butterhead lettuce. The outside leaves are magenta and the interior leaves are apple-green. It is self-blanching. This variety of lettuce forms heads quickly! Very flavorful. Great for salads and garnishes. It can be grown nearly year-round as it keeps firm even under hot weather. It has the ability to withstand summer heat and produce in cool spring and fall-autumn weather. Bolt Tolerant. Also known as Marvel of Four Seasons Lettuce. An excellent choice for home gardens and specialty market growers. An 1885 heirloom variety from France.

LC39-750 - New York 12 Lettuce

1963 All-America Selections Winner!

60 days. *Lactuca sativa*. Open Pollinated. The plant produces good yields of large crisphead lettuce. The crisp leaves are delicious and perfect for sandwiches, salads, and garnishes. A heat-resistant variety that is excellent for fall crops in the South. It is tolerant to stress, poor soils, and bolting in the summer heat. Heat Tolerant. It was introduced in the 1960s by Cornell University. Good shipper variety for commercial growers. Excellent choice for home gardens, market growers, and open field production. United States Department of Agriculture, PI 190235. Disease Resistant: TB.

LC14-750 - Oak Leaf Lettuce

45 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces very flavorful medium-dark lettuce that is shaped like oak leaves. As outer leaves are picked, inner leaves keep producing. Perfect for salads and garnishes. This variety stands well without bolting. Long-standing, never bitter, and does amazingly well in the summer heat. Fast-growing, and regrows well after cuttings as long as it is planted in fertile soil. Non-heading plants. The easiest type of lettuce to grow. Excellent choice for home gardens. A 1771 heirloom from France that has been growing continuously since prior to the Revolutionary War! United States Department of Agriculture, PI 536751.

LC33-750 - Ruby Red Lettuce

1958 All-America Selections Winner!

53 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces good yields of red leaf lettuce. This is a very heat-tolerant variety. Slow to bolt. Color does not fade in hot weather. Perfect for salads and garnishes. Adds color to salads. Heat Tolerant. Always a great seller at Farmer's Markets! Excellent choice for home gardens. An heirloom dating back to 1958. United States Department of Agriculture, PI 536761.

LC22-750 - Salad Bowl Green Lettuce Seeds

1952 All-America Selections Winner!

44 days. *Lactuca sativa*. Open Pollinated. Salad Bowl Green Lettuce. This early maturing plant produces excellent yields of flavorful green leaf lettuce. As outer leaves are picked, inner leaves keep producing. Ideal for hot weather as it is slow to bolt. Perfect for salads and garnishes. Suitable for containers. Excellent choice for home gardens. An heirloom variety. United States Department of Agriculture, PI 536762.

LC40-750 - Salinas Lettuce

75 days. *Lactuca sativa*. Open Pollinated. The plant produces high yields of crisphead lettuce. A good standard shipper variety for commercial growers. Heat Tolerant. Cold Tolerant. Resistant to bolting. Salinas is known as the Lettuce Capital of the World! An excellent choice for home gardens, market growers, and open field production. Disease Resistant: LMV, TB.

LC62-750 - Slobolt Lettuce

48 days. *Lactuca sativa*. Open Pollinated. This early maturing plant produces excellent yields of very flavorful lettuce. The outer leaves may be picked off as it grows. It has a delightful crispness and mild flavor and is never bitter. Grows even in hot weather! Heat-Tolerant. Slow to bolt. Suitable for greenhouse production and outdoor planting. Excellent choice for home gardens, greenhouses, market growers, and open field production. An heirloom dating back to 1946. United States Department of Agriculture, PI 536764.

LC13-750 - Tom Thumb Lettuce

65 days. *Lactuca sativa*. Open Pollinated. This small compact plant produces excellent yields of small butterhead lettuce. Each head is a perfect size, 3 to 4" across, for a crispy and tasty salad. Perfect for salads and garnishes. It is excellent summer lettuce as it tolerates high temperatures at maturity and resists bolting better than larger varieties. Heat Tolerant. Perfect for container gardening, hanging baskets, or small gardens where space is very limited! Suitable for greenhouse. An excellent choice for home gardens and specialty market growers. An 1850 heirloom from England. United States Department of Agriculture, PI 536767.

LC42-750 - Webb's Wonderful Lettuce Seeds

65 days. *Lactuca sativa*. Open Pollinated. Webb's Wonderful Lettuce. The plant produces good yields of very large crisphead lettuce. It has an exceptional buttery and mild flavor like butterhead lettuce. The crisp leaves are perfect for sandwiches, salads, and garnishes. Does well in hot weather, dry or wet conditions. Slow to bolt. Suitable for the Southern region of the country. Excellent choice for home gardens and market growers. An 1890 heirloom variety from England. United States Department of Agriculture, PI 234624. Disease Resistant: V.

LC49-750 - White Boston Lettuce

72 days. *Lactuca sativa*. Open Pollinated. The plant produces good yields of butterhead lettuce. Very flavorful with a buttery taste. This is an improved version of the Big Boston. It grows higher off the ground, so no bottom rot. Does well in hot weather. Excellent choice for home gardens and market growers. An heirloom variety dating back to the 1930s. United States Department of Agriculture, PI 612637.

LC52-750 - Winter Density Lettuce Seeds

65 days. *Lactuca sativa*. Open Pollinated. Winter Density Lettuce. The plant produces heavy yields of dark green romaine lettuce. Leaves are tightly folded and have a sweet flavor. Also known as Craquerelle du Midi lettuce. Heads sit high on the stem for good airflow. Heat Tolerant. Frost tolerant. Slow to bolt. Grow year-round with winter protection in cold climates. An excellent choice for home gardens. A 19th-century heirloom from France. United States Department of Agriculture, PI 536774.
