

# Farmer's Market Cucumbers

## [CU101-20 - Alibi Cucumber Seeds](#)

50 days. Cucumis sativus. (F1) Alibi Cucumber. The plant produces very high yields of 3 to 4" long medium green cucumbers. This is a very productive variety. If you keep picking, they'll keep producing. Great for making gherkin pickles and best when picked 2" long for pickling. An excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

## [CU54-20 - Armenian Metki Dark Green Cucumbers](#)

65 days. Cucumis melo. Open Pollinated. The plant produces good yields of 18 to 36" long dark green cucumbers. It is bitter-free, very mild, tasty, and crisp. It is an excellent slicer and perfect for salads and gourmet dishes. Best when harvested when 12" long. A great selling item at farmers' markets. Excellent choice for home gardens and market growers. An heirloom variety was introduced into Italy from Armenia in the 1400s.

## [CU86-100 - Armenian Pale Green Cucumbers](#)

65 days. Cucumis melo. Open Pollinated. The plant produces good yields of 10 to 12" long light green cucumbers. It is bitter-free, deliciously sweet, crisp and crunchy. It is an excellent slicer and perfect for salads and gourmet dishes. A great selling item at farmer's markets. Excellent choice for home gardens and market growers. An heirloom variety from Armenia.

## [CU87-20 - Armenian Striped Cucumbers](#)

65 days. Cucumis melo. Open Pollinated. The plant produces good yields of 18 to 36" long pale green striped cucumbers. Cucumbers are very delicious, mild, bitter-free, and crisp. A great slicer, and perfect for salads and gourmet dishes. Best when harvested when 8 to 12" long. Grow on a trellis for straight cucumbers. Also known as Painted Serpente Cucumbers. A great selling item at farmers' markets. Excellent choice for home gardens and market growers. An heirloom from Armenia.

## [CU46-20 - Ashley Cucumbers](#)

65 days. Cucumis sativus. Open Pollinated. The plant produces excellent yields of 6 to 8" long light green cucumbers. Excellent slicing cucumber for salads. Grows well in hot and humid regions in the South. One of the most profitable cucumbers you can grow. Heat Tolerant. Excellent choice for home gardens and market growers. An heirloom variety was developed in 1956 by the Clemson Agricultural Experimental Station, Charleston, South Carolina, USA. United States Department of Agriculture, AMES 4833. Disease Resistant: DM.

## [CU76-20 - Beit Alpha Cucumber Seeds](#)

56 days. Cucumis sativus. (F1) Beit Alpha Cucumber. The plant produces excellent yields of 12" long sweet, bitter free, and burpless cucumbers. A Middle Eastern type cucumber that is smooth and blocky with dark green skin. The flesh is crunchy, and the skin is so mild it does not have to be peeled. It is usually picked small at 5 to 6" long. It can be used for pickling or sliced in salads. Long shelf life. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. United States Department of Agriculture, PI 292010. Disease Resistant. CMV, CVYV, DM, PM, WMV, ZYMV.

### **CU129-20 - Brickyard Cucumber Seeds**

50 days. Cucumis sativus. (F1) Brickyard Cucumber. This early maturing plant produces high yields of 8" long smooth dark green cucumbers. It has a strong vigorous vines. One of the most disease-resistant varieties. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

### **CU40-20 - Calypso Cucumbers**

52 days. Cucumis sativus. (F1) The plant produces heavy yields of 3 to 6" long dark green cucumbers. Great for making pickles! It is suitable for hand or machine harvesting. Excellent choice for home gardens and market growers. Developed by North Carolina State University. United States Department of Agriculture, NSL 214302. Disease Resistant: A, ALS, CMV, DM, PM, S.

### **CU78-20 - County Fair Cucumber Seeds**

52 days. Cucumis sativus. (F1) County Fair Cucumber. This early maturing plant produces high yields of 6 to 8" long green cucumbers. A high-quality cucumber that is sweet, non-bitter, firm, and crunchy. A perfect variety for making chips, spears, and whole pickles. Best when harvested when 2 to 4" for pickling. It also makes a good slicer. This parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper crop. Perfect for greenhouse production. An excellent choice for home gardens, greenhouses, and market growers. Disease Resistant: BW.

### **CU130-20 - Cucamelon Cucumber Seeds**

67 days. Melothria scabra. Open Pollinated. Cucamelon Cucumber. The plant produces good yields of small 1" long pale green cucumbers with dark green stripes. They are very delicious and have a unique flavor. They look like miniature watermelons but have a cucumber taste with a slight citrus flavor. It has been used for centuries by the Aztecs and other native peoples. Excellent for salads, sandwiches, spreads, pickling, or snacks. Kids love them. You should pick mature cucumbers to encourage longer yields. Similar to the Mexican Sour Gherkin and known as the Mouse Melon. The plant is most productive in hot weather or a greenhouse setting. Heat Tolerant. Drought Tolerant. High Humidity Tolerant. It would be best if you used a trellis or a pea fence. Suitable for hanging baskets. An excellent choice for home gardens, Farmer's Markets, greenhouses, market growers, and open field production. An heirloom variety from Mexico and Central America. Disease Resistant.

### **CU102-10 - Dasher II Cucumber Seeds**

58 days. Cucumis sativus. (F1) Dasher II Cucumber. This early maturing plant produces high yields of 8 to 10" long dark green cucumbers. A quality slicing variety is best grown on a fence or trellis for easy harvest. One of the highest yielding cucumber varieties available. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU24-20 - Diva Cucumber Seeds**

#### **2002 All-America Selections Winner!**

58 days. Cucumis sativus. (F1) Diva Cucumber. The plant produces high yields of non-bitter burpless and seedless 6 to 8" long glossy dark green cucumbers. Cucumbers are tender, crisp, sweet, and bitter-free. Best when harvested at 4 to 5" long. Excellent for salads or pickling. Plant foliage is non-bitter and less attractive to the cucumber beetles than some varieties. It is a gynocious and parthenocarpic variety and will produce without pollination! It is known for its big yields. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CVYV, DM, PM.

### **CU9-20 - Eureka Cucumbers**

57 days. Cucumis sativus. (F1) This early producing plant produces high yields of 5 to 7" long dark green cucumbers. Best when harvested when 2 to 5" for pickling. Monoecious and virtually trouble-free. Very flavorful and crisp. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, PRSV, WMV, ZYMV.

### **CU94-20 - Fancipak Cucumber Seeds**

57 days. Cucumis sativus. (F1) Fancipak Cucumber. The plant produces high yields of medium dark green cucumbers. They are crisp and very tasty. Best when harvested when 4" long. The plant has dense foliage protecting the cucumbers from sunscald. Excellent pickling variety. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM, ZYMV.

### **CU9-20 - Fanfare Cucumber Seeds**

#### **1994 All-America Selections Winner!**

63 days. Cucumis sativus. (F1) Fanfare Cucumber. This semi-dwarf plant produces heavy yields of 8 to 10" long deep green cucumbers. They are crisp and very delicious with a mild taste. Great slicing cucumber for salads. Due to its compact vines, this hybrid variety can be planted at closer row spacing than normal cucumbers. It produces high-quality cucumbers over a longer time than other varieties. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU31-20 - General Lee Cucumbers**

66 days. Cucumis sativus. (F1) This plant produces excellent yields of uniform 8 to 8 1/2" long dark green cucumbers. Excellent for salads or slicing. This variety can be grown in spring and fall. This is a gynoecious plant and has a high yield potential and a 10% pollinator is added. It is a great choice for local fresh markets. Does well in both northern and southern parts of the country. Excellent choice for home gardens and market growers. Disease Resistant: Ccu, CMV, DM, PM.

### **CU131-20 - Goliath Cucumber Seeds**

58 days. Cucumis sativus. (F1) Goliath Cucumber. This early maturing plant produces heavy yields of 8" long smooth dark green cucumbers. Cucumbers are non-bitter and very tasty. It has a strong vigorous vines and holds well in the field. Very disease-resistant. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, PM, TLS, ZYMV.

### **CU97-20 - Jackson Supreme Cucumbers**

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of dark green pickling cucumbers. Cucumbers are best when harvested when 3 or 4" long. Excellent quality pickling variety. One of the most disease-resistant cucumbers on the market. Grows well in the Southern States of the USA. Excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU11-20 - Lemon Cucumber Seeds**

65 days. Cucumis sativus. Open Pollinated. Lemon Cucumber. The plant produces heavy yields of 2 ½ to 4" round lemon-shaped cucumbers. They are tender and sweet, are never bitter, and are great for salads and pickling. Great for large containers! Does well in cool weather. Cold Tolerant. Drought Tolerant. Great specialty market salad item. Excellent choice for home gardens and specialty market growers. An 1894 heirloom variety from Australia. United States Department of Agriculture, NSL 106620.

### **CU41-20 - Little Leaf Cucumber Seeds**

57 days. Cucumis sativus. Open Pollinated. Little Leaf Cucumber. This compact plant produces high yields of 3 to 5" long emerald green colored cucumbers. It may be the highest yielding pickling cucumber on the market today, producing 25 to 30 cucumbers per plant! An excellent cucumber for salads and pickling. It is a parthenocarpic variety and no male pollen is needed, so even if bees are scarce you'll still get a bumper crop. Perfect for container gardening. Does well under stress and adverse weather conditions. Heat Tolerant. Drought Tolerant, Cold Tolerant. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, hydroponics, greenhouses, market growers, and open field production. Developed in 1991 by the University of Arkansas, USA. Disease Resistant: A, ALS, BW, Ccu, CMV, DM, PM.

### **CU125-10 - Manny Cucumber Seeds**

50 days. Cucumis sativus. (F1) Manny Cucumber. The plant produces good yields of 5 to 7" long shiny medium green cucumbers. This Beit Alpha cucumber has tender skin and a delicious mild flavor. It grows best if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. It is ideal for those growing in tunnels. Impressive yields in open field production too. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: PM.

### **CU12-20 - Marketer Cucumbers**

#### **1943 All-America Selections Winner!**

55 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8 to 9" long smooth dark green cucumbers. Great for slicing and salads. Perfect for pickles when picked small. Does well in hot and humid regions and in the Southern states. Heat Resistant. Excellent choice for home gardens and market growers. A 1942 heirloom variety from New Haven, Connecticut, USA. United States Department of Agriculture, NSL 5739.

### **CU13-20 - Marketmore 76 Cucumber Seeds**

68 days. Cucumis sativus. Open Pollinated. Marketmore 76 Cucumber. The plant produces heavy yields of 8 to 10" long dark green cucumbers. Excellent slicing cucumber and can also be used to make dill pickles. Does well even under adverse weather conditions over a long season in hot or cool weather. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. United States Department of Agriculture, PI 561148. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU113-20 - Marketmore 97 Cucumber Seeds**

55 days. Cucumis sativus. Open Pollinated. Marketmore 97 Cucumber. The plant produces good yields of 9 to 11" long cucumbers. Excellent flavor and is perfect for salads or pickling when harvested at 3 to 5" long. Cucumbers are non-bitter and burpless. Tolerant to the striped cucumber beetle and the spotted cucumber beetle. One of the most disease-resistant varieties developed. Suitable for commercial growers. An excellent choice for home gardens, market growers, and open field production. Developed in 1976 by Dr. Henry Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: ALS, Ccu, CMV, DM, PM, PRSV, TLS, ULS, WMV, ZYMV.

### **CU132-10 - Mini-Me Cucumber Seeds**

45 days. Cucumis sativus. (F1) Mini-Me Cucumber. This early maturing plant produces high yields of 3 ½" long sweet, bitter-free, and burpless cucumbers. This mini Beit Alpha is smooth and with shiny green skin. The flesh is crunchy and delicious, and the skin is so mild it does not have to be peeled. It is usually picked small for the best quality. It can be used for pickling or sliced in salads. Long shelf life. Very disease-resistant cucumbers. It is a parthenocar[ic variety, producing only female flowers, and does not require pollination, making cultivation super easy. The plant continues to produce all season long. This is the high variety you find in supermarkets. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant. CMV, CVYV, DM, PM.

### **CU107-20 - Olympian Cucumbers**

59 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 7 ½ to 8" long smooth glossy dark green cucumbers. They are crisp and very flavorful. A top commercial quality slicing variety with strong disease resistance. It sets loads of cucumbers over the long season. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, DM, PM, ZYMV.

### **CU135-10 - Pepinex Cucumber Seeds**

65 days. Cucumis sativus. (F1) Pepinex Cucumber. The plant produces high yields of 12 to 14" long slender glossy dark green cucumbers. One of the best high quality cucumbers on the market. They are sweet, crisp, and bitter-free. It is an excellent slicer and perfect for salads and gourmet dishes. The skin is thin and requires no peeling. Suitable for home gardens or greenhouse production. This quality cucumber grows best if grown on trellis or stakes. An excellent choice for home gardens, greenhouses, farmer's markets, market growers, commercial production, and open field production. Disease Resistant: DM, PM.

### **CU19-10 - Persian Middle East Cucumber Seeds**

50 days. Cucumis sativus. Open Pollinated. Persian Middle East Cucumber. This early producing plant produces high yields of 5 to 7" long sweet and crunchy cucumbers. This thin skinned variety has excellent flavor and is never bitter. Vines bear extremely early and are very productive. Adaptable to a variety of climates. Excellent fresh or pickled. A favorite variety for the Middle East region. An excellent choice for home gardens and market growers.

### **CU56-20 - Pioneer Cucumbers**

51 days. Cucumis sativus. (F1) The plant produces high yields of 3 to 6" long dark green cucumbers. Crunchy flesh makes it great for making pickles. Can be used fresh in salads or pickled. One of the most reliable cucumbers on the market. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: ALS, Ccu, DM.

### **CU69-20 - Raider Cucumbers**

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of uniform dark green cucumbers. Excellent for salads or slicing. One of the earliest-maturing slicers on the market. A gynocious hybrid (mostly female) variety that is great for Canada and the Northern United States. Suitable for home gardens and market growers. Disease Resistant: ALS, Ccu, CMV.

### **CU71-20 - Regal Cucumbers**

52 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 2 to 4" long dark green cucumbers. A variety with slightly longer, a slimmer shape which makes it perfect for making chips, spears, and whole pickles. An excellent pickling cucumber that produces continuously all season. It can be either hand-picked or machine harvested in the North or South parts of the country. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A variety from the USA. Disease Resistant: PM.

### **CU96-20 - Rockingham Cucumbers**

58 days. Cucumis sativus. (F1) The plant produces high yields of 8 ½" long dark green cucumbers. This cucumber is most appreciated by commercial growers because it produces nice dark green, smooth, and long cucumbers. Vines are strong and vigorous. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. Disease Resistant: A, Ccu, ALS, CMV, PM.

### **CU110-20 - Snow's Fancy Pickling Cucumbers**

55 days. Cucumis sativus. Open Pollinated. This early maturing plant produces good yields of 5" long dark green cucumbers. It is firm, crisp, and tender. The ideal pickler! This variety was introduced in 1905 by Vaughan's Seed House of Chicago. It was selected by J. C. Snow of the famous Snow Pickle Farm located in Rockford, Illinois. At that time, it fit the requirements for small pickling manufacturing. Excellent choice for home gardens and market growers. An heirloom variety from Illinois, USA.

### **CU23-20 - Spacemaster 80 Cucumber Seeds**

60 days. Cucumis sativus. Open Pollinated. Spacemaster 80 Cucumber. This compact bush-type plant produces heavy yields of 7 to 8" long nicely shaped dark green cucumbers. Excellent for pickling when small, and slicing when they get bigger. They are crisp and tasty. A great bush variety cucumber has amazing flavor with no bitterness. Ideal for containers, hanging baskets, or home gardens with limited space. The plant has short vines, only 3 feet long! Also perfect for close commercial cropping. Also suitable for hydroponic gardening. Excellent choice for home gardens and market growers. Developed in 1980 by Dr. Henry M. Munger of Cornell University, Ithaca, New York, USA. Disease Resistant: Ccu, CMV, DM, PM.

### **CU104-10 - Speedway Cucumber Seeds**

56 days. Cucumis sativus. (F1) Speedway Cucumber. This early maturing plant produces high yields of 8" long smooth straight dark green cucumbers. This cucumber variety is popular because of its earliness, its yields, and its disease resistance. This quality cucumber has tender skin and grows best if grown on trellis or stakes. One of the most disease resistant cucumbers on the market. Excellent for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU4-20 - Stonewall Cucumbers**

53 days. Cucumis sativus. (F1) The plant produces high yields of 8 to 9" long straight dark green cucumbers. It has received high grades for quality, shape, size, and is the No. 1 cucumber variety for commercial production. Perfect for salads and slicing. Stores well. Agriculture researchers and commercial growers are very familiar with this top performer. One of the most disease-resistant cucumbers on the market. Excellent choice for home gardens and market growers. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### **CU34-20 - Straight Eight Cucumbers**

#### **1935 All-America Selections Winner!**

63 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 8" long dark green cucumbers. One of the best-slicing cucumbers on the market. It is an extremely dependable producing crop. If you had bad luck with other cucumber varieties last season, then this one this year. You will be giving them away to your family, neighbors, and friends there are so many! Grows best if grown on trellis or stakes. Excellent choice for home gardens and market growers. A 1938 heirloom variety named for its perfectly straight 8" long cucumber. United States Department of Agriculture, NSL 5764. Disease Resistant: CMV.

### **CU126-20 - Super Max Cucumbers**

50 days. Cucumis sativus. (F1) The plant produces high yields of 4" long dark green cucumbers. These quality cucumbers are perfect for making pickles. They are crunchy, never get soft or mushy, and are very flavorful. They have very few seeds too. This is an improved version of Supremo Cucumber. An excellent choice for home gardens, market growers, and commercial growers. Disease Resistant: CMV, PRSV, WMV, ZYMV.

### **CU26-10 - Sweet Slice Cucumber Seeds**

63 days. Cucumis sativus. (F1) Sweet Slice Cucumber. This plant produces high yields of 9 to 12" long dark green cucumbers. They are sweet, bitter-free, burpless, crisp, tender, with thin skin, so thin it requires no peeling. Its superior quality gives it gourmet status. After a sample taste, customers know Sweet Slice is a cut above the rest. Excellent choice for home gardens and market growers. Disease Resistant: CMV, DM, PM, PRSV, WMV, ZYMV.

### **CU27-10 - Sweet Success Cucumber Seeds**

#### **1983 All-America Selections Winner!**

58 days. Cucumis sativus. (F1) Sweet Success Cucumber. The plant produces good yields of 12" long seedless and burpless dark green cucumbers. This high quality cucumber has tender skin and grows perfectly straight if grown on trellis or stakes. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. One of the most disease resistant cucumbers on the market. Excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: ALS, Ccu, CMV, TLS, WMV.

### **CU2-10 - Sweeter Yet Cucumber Seeds**

48 days. Cucumis sativus. (F1) Sweeter Yet Cucumber. This early maturing plant produces high yields of 10 to 12" long dark green cucumbers. A dual-purpose non-bitter cucumber that can be used fresh in salads or pickled. Cucumbers are sweet, burpless, bitter-free, and their skins require no peeling. Compact semi-bush type plants produce continually all season long. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: CMV, DM, PM, PRSV, ZYMV.

### **CU3-10 - Tasty Green Cucumber Seeds**

62 days. Cucumis sativus. (F1) Tasty Green Cucumber. The plant produces heavy yields of 18 to 20" long dark green cucumbers. It is burpless with no bitterness, crispy, juicy, easy to digest, and very delicious! This variety is the world's most popular cucumber. It produces early in the season and continuously produces heavy yields all season. It grows well in the South and tolerates high temperatures and humidity. It is also great in raised beds or containers. Suitable for greenhouse production too. For home gardens and greenhouse production, best if grown on a trellis or stakes. Does well even under adverse weather conditions. An excellent choice for home gardens, greenhouses, market growers, and open field production. Disease Resistant: DM, PM.

### **CU72-10 - Tasty Jade Cucumbers**

54 days. Cucumis sativus. (F1) The plant produces high yields of 10 to 12" long slender glossy green cucumbers. One of the best Asian cucumbers on the market. They are crisp and bitter-free. It is an excellent slicer and perfect for salads and gourmet dishes. The skin is thin and requires no peeling. This is a parthenocarpic variety and sets fruit without bee pollination making it an excellent variety for greenhouse and open field production. Suitable for home gardens or greenhouse production. This quality cucumber grows best if grown on trellis or stakes. It will be seedless if isolated from other varieties. An excellent choice for home gardens, greenhouses, farmer's markets, market growers, commercial production, and open field production. Disease Resistant: DM, PM.

### **CU28-10 - Tasty King Cucumbers**

62 days. Cucumis sativus. (F1) The plant produces high yields of 8 to 10" long dark green cucumbers. One of the best-tasting burpless cucumbers on the market! They are very crisp and very delicious. Suitable for greenhouse production and hydroponic gardening. An excellent choice for home gardens, greenhouses, market growers, and open field production. A variety developed in Japan.

### **CU115-20 - Telegraph Improved Cucumber Seeds**

62 days. Cucumis sativus. Open Pollinated. Telegraph Improved Cucumber. The plant produces excellent yields of 15 to 18" long dark green cucumbers. These are just like the ones found at the grocery store but much fresher because they come straight from your garden. These long cucumbers stay crisp and fresher longer than other varieties. They are burpless, mild-flavored, and never bitter. Also known as English Telegraph Cucumber. Good for summer or winter production. This is an excellent greenhouse variety. The plants will grow up to 8 feet in a greenhouse, are easily trellised, and set fruit without pollination. Does well in the garden outdoors too. An excellent choice for home gardens, greenhouses, and market growers. An English heirloom variety dating back to 1897.

### **CU38-20 - Tendergreen Burpless Cucumbers**

55 days. Cucumis sativus. Open Pollinated. The plant produces heavy yields of 6 to 8" long medium green cucumbers. It is crispy, tender, burpless, bitter-free, and acid-free. It has thin skin and doesn't need any peeling. Great for salads and for pickling when cucumbers are small. Does well in high soil moisture and also cold soil. Best when harvested when 3 to 6" long. An excellent choice for home gardens and market growers. An heirloom dating back to the 1930s. United States Department of Agriculture, NSL 106653. Disease Resistant: CMV, DM, PM.

### **CU105-20 - Thunder Cucumbers**

55 days. Cucumis sativus. (F1) This early maturing plant produces high yields of 8 ½" long smooth glossy dark green cucumbers. A top commercial quality slicing variety with strong disease resistance. One of the most disease-resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, ZYMV.

### **CU92-10 - Turbo Cucumber Seeds**

67 days. Cucumis sativus. (F1) Turbo Cucumber. The plant produces high yields of 9" long dark green slicing cucumbers. It is crisp and very delicious. This quality cucumber grows best if grown on trellis or stakes. Does well in the Northeast parts of the country. One of the most disease resistant cucumbers on the market. An excellent choice for home gardens, market growers, and open field production. Disease Resistant: A, ALS, Ccu, CMV, DM, PM.

### CU58-20 - White Wonder Cucumbers

60 days. Cucumis sativus. Open Pollinated. The plant produces high yields of 6 to 8" long lovely ivory-skinned cucumbers. They are exceptionally crisp and very delicious without the bitter taste. Great for salads, pickles, or gourmet dishes. It looks great in salads to adds extra color to gourmet dishes. The tender white skins are so thin that they won't even need peeling. Great for making chips, spears, and whole pickles. Suitable for greenhouses too! Impress your neighbors by growing some white cucumbers! Also known as Albino Cucumber, Ivory King Cucumber, Jack Frost Cucumber, Landreth's White Slicing Cucumber, Long White Cucumber, and White Albino Cucumber. Does well in hot weather. An excellent choice for home gardens, greenhouses, and specialty market growers. An 1893 heirloom variety from New York, USA. United States Department of Agriculture, NSL 5773.
