

Squash

SQ90-20 - Blue Hubbard Squash

120 days. Cucurbita maxima. Open Pollinated. The plant produces good yields of 20" long weighing up to 40 lb blue-gray hubbard squash. The high-quality fine textured bright orange-yellow flesh is very sweet. This giant squash can feed a large family gathering! Perfect for making pies and also for its large white sweet seeds which when deliciously roasted. A great New England Thanksgiving tradition favorite.

Chef's top choice for restaurants. Stores well, up to 6 months. The average yield is 1 or 2 squash per plant. The vines will crawl all over the garden, so select a site in the garden where it can spread without affecting other plants. This is the original strain developed in 1909 by seed breeder J. H. Gregory. The seeds were given by a Captain aboard a ship from the West Indies. Suitable for home garden and market growers. A variety originally from South America. A winter squash variety.
