

## Okra

### [OK15-20 - Alabama Red Okra](#)

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces good yields of red okra. This okra is delicious when fried, and adds color and unique flavor added to salads when young. Makes some of the best fried okra. Harvest regularly when 4 to 6" long. An heirloom variety from Alabama, USA. An excellent choice for home gardens.

### [OK35-10 - Beck's Big Buck Okra](#)

85 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces high yields of large green okra. The pods are remarkably tender and delicious. Harvest pods when they are young and tender. It is also known as the Snapping Okra because of the way it snaps easily off the plant when ready to harvest. An excellent choice for home gardens. An heirloom variety from Germany.

### [OK23-10 - Beck's Gardenville Okra](#)

80 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of okra. Very easy to grow. The pods are ready to pick when they snap off the stalks easily. Drought-Tolerant. An heirloom variety from San Antonio, Texas, USA.

### [OK16-20 - Burmese Okra](#)

58 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces good yields of 7 to 12" long light green okra. The pods are green and turn creamy yellow-green when mature. Large pods are tender, spineless, and very flavorful. At 4 to 10" long they are tender, sweet, and spineless enough to be eaten raw or added to salads. A great pickling variety. A favorite used in restaurants. Excellent choice for home gardens and specialty market growers. An heirloom variety from Burma, now known as Myanmar.

### [OK19-20 - Cajun Jewel Okra](#)

53 days. *Abelmoschus esculentus*. Open Pollinated. This early producing plant produces high yields of 7 to 8" long okra. It is a spineless variety that is great for fried okra and making gumbo. Popular in the Southern parts of the USA. An excellent choice for home gardens and market growers. A 1950s heirloom variety from the USA.

### [OK24-20 - Clemson Spineless 80 Okra](#)

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces high yields of flavorful okra. Leaves are spineless making them easier to harvest. Taller, more open, and more productive than the Clemson Spineless Okra. Best if picked when 3 to 4" long. Used for making fried okra, soups, stews, meats dishes, and gumbos. An excellent choice for home gardens, farmer's markets, and market growers. Developed in 1980 by Clemson University, Clemson, South Carolina, USA.

## ELECTRONIC CATALOG

### [OK4-20 - Clemson Spineless Okra](#)

#### **1939 All-America Selections Winner!**

56 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of flavorful 9" long dark green okra. It is still the most popular variety on the market. Leaves are spineless making it easier to harvest. Best if picked when 3" long. Used in making fried okra, gumbo, soups, stews, and meats dishes. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, NSL 26508.

### [OK13-20 - Cow Horn Okra](#)

60 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces high yields of 14" long okra. The large pods remain spineless and tender up to 10" long, but are best when the pods are picked at 6" long. Great for making fried okra and gumbo. An excellent choice for home gardens and market growers. An heirloom variety dating back to pre-1865.

### [OK9-20 - Dwarf Long Green Pod Okra](#)

50 days. *Abelmoschus esculentus*. Open Pollinated. This early maturing plant produces heavy yields of 7 to 8" long okra. This spineless variety produces earlier and higher yields than other varieties. A great choice for Northern growers because it doesn't require as long of a hot growing season. Suitable for Southern and Northern regions. An excellent choice for home gardens and market growers.

### [OK5-20 - Emerald Okra](#)

55 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces heavy yields of 6 to 8" long dark green okra. The pods are thick-walled, smooth, tender, and spineless. Stay tender even when very large. Best to harvest when 4" long. Retains color when frozen or canned. Perfect for soups, stews, fried, or boiled. Also known as Emerald Green Velvet Okra. An excellent choice for home gardens, farmer's markets, market growers, open production, and commercial production. A 1950 heirloom variety developed by the Campbell Soup Company, Riverton, New Jersey, USA. United States Department of Agriculture, PI 675122

### [ES4 - Emergency Survival Seed Kit \(20 Vegetables\)](#)

**OK14-20 - Hill Country Red Okra**

70 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces good yields of 3 to 5" long green and red okra. The pods are green with red tips and red ribs. Great for making fried okra, soups, stews, and gumbo. An excellent pickling variety. Drought-Tolerant. Excellent choice for home gardens. An heirloom variety from Texas, USA.

**OK18-20 - Jade Okra**

70 days. *Abelmoschus esculentus*. Open Pollinated. This early producing plant produces high yields of dark green okra. The okra stays tender up to 6" long. Great for making fried okra, soups, stews, and gumbo. An excellent choice for home gardens. Developed in 1991 by the University of Arkansas, Arkansas, USA.

**OK30-20 - Jambalaya Okra**

50 days. *Abelmoschus esculentus*. (F1) This extra-early maturing plant produces high yields of 6 to 7" long shiny dark green okra. Great for making fried okra, soups, stews, gumbo, and casseroles. This compact plant is just the right size for a home garden. Suitable for containers. An excellent choice for home gardens.

**OK3-20 - Louisiana Green Velvet Okra**

**1941 All-America Selections Winner!**

58 days. *Abelmoschus esculentus*. Open Pollinated. This early maturing plant produces good yields of 5 to 8" long spineless dark green okra. The okra remains tender when large. Retains its vibrant color when cooked. This variety does well where temperatures and humidity are high. Excellent choice for home gardens and market growers. Developed by the Louisiana State University, Louisiana, USA. United States Department of Agriculture, PI 675127.

**OK25-20 - Perkins Dwarf Long Green Okra**

55 days. *Abelmoschus esculentus*. Open Pollinated. This early maturing plant produces high yields of flavorful 8 to 9" long okra. An extra-large pod that is tender and very delicious. Great for making fried okra, soups, stews, gumbo, and casseroles. Perfect type canning. An excellent choice for home gardens. An heirloom variety.

**OK12-20 - Perkins Mammoth Long Okra**

55 days. *Abelmoschus esculentus*. Open Pollinated. This early maturing plant produces good yields of 6" long green okra. Excellent for soups, stews, gumbo, and fried or boiled. Perfect canning variety.

**OK2-20 - Red Burgundy Okra**

**1988 All-America Selections Winner!**

60 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces high yields of 6 to 8" long burgundy colored okra. This variety has deep red colored stems with green leaves and would be great for an ornamental plant. Pods can be harvested up to 8" long and still remain tender. Great for making fried okra, soups, stews, gumbo, and casseroles. An excellent choice for home gardens and specialty market growers. Developed by Leon Robbins at the Clemson University, Clemson, South Carolina, USA.

**OK27-10 - Red Velvet Okra**

70 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces good yields of beautiful 5" long scarlet red okra. This variety has deep red colored stems with green leaves. Best when harvested when pods are 3" to 5" long when still tender.

**OK22-20 - Silver Queen Okra**

80 days. *Abelmoschus esculentus*. Open Pollinated. The plant produces huge yields of 7" long whitish-green okra. Very tender when picked young. Great for making fried okra, soups, stews, gumbo, and casseroles. Excellent choice for home gardens.
