

Tomatillo & Ground Cherries

[TL9-100 - Aunt Molly's Ground Cherry Seeds](#)

70 days. *Physalis peruviana*. Open Pollinated. Aunt Molly's Ground Cherry. This early maturing plant produces heavy yields of flavorful ground cherries. This Ground Cherry is one of the sweetest and fruity tastings, turning from green to golden orange when mature. Excellent for making jam or pies. Stores well up to 3 months in the husk. An excellent choice for home gardens. A variety from Poland.
