*Robinia pseudoacacia*. Open Pollinated. The plant produces a beautiful hardwood shade tree. Fragrant white flowers in the spring make it very attractive. Used for medical purposes, as a laxative, antispasmodic, and diuretic. British colonists used timber from these trees to build houses. The wood is extremely hard, being one of the hardest woods in Northern America. It is very resistant to rot. It is used for making furniture, flooring, paneling, fence posts, and small watercraft. Excellent for landscaping projects. A variety from the USA.

### [TR23-5 - Calamondin - Calamansi Citrus Fruit](#)

Calamansi Citrus Fruit. Calamondin. Open Pollinated. The tree produces fruit with a zesty lime flavor. Used to flavor cooking dishes and drink mixes - ice tea, Pepsi, and Sprite. A tropical citrus tree from the Mariana Islands, USA.

### [TR10-5 - Coffee Tree](#)

*Coffea arabica*. Perennial. Open Pollinated. The tree produces beans that are roasted and ground into America's favorite beverage - coffee. You need to peel the hulls off the seeds before planting them so they can germinate. The tree has shiny foliage and fragrant white flowers. It is considered to produce better coffee than the other major commercially grown coffee species. Arabica contains less caffeine than any other commercially cultivated species of coffee. Also excellent for school projects. Try growing your own coffee beans.

**TR13-3 - English Walnut Tree**

Juglans regia. Open Pollinated. The tree produces high yields of large walnuts. The English Walnut tree produces nuts faster than almost any other walnut tree you can find. The green foliage and sturdy branches provide excellent shade. This is the common thin-shelled walnut found in grocery stores and widely used for food. This is the Carpathian strain that comes from that more northern region of the country where they have developed greater cold hardiness. This variety is a rapid grower. Great for school projects. Kids love them!

**TR26-10 - Florida Palm Tree**

Arecaceae. Open Pollinated. This beautiful palm tree grows well in Florida. It is a very attractive landscaping tree and provides a little bit of shade.

**TR28-10 - Giant Sequoia Redwood Tree**

Sequoiadendron giganteum. Giant Sequoias Redwoods are the world's largest trees! The trees average 165 to 280 feet in height and 18 to 24 feet in diameter. The leaves are evergreen. The oldest known Giant Sequoia Redwood is 3,500 years old. Try growing your own Giant Sequoia Redwood Tree.

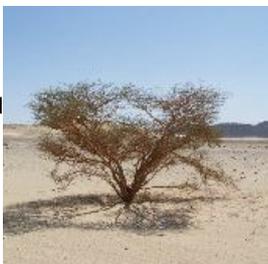

**TR17-5 - Ginkgo Tree**

Ginkgo biloba. Open Pollinated. One of the oldest trees appears to improve blood circulation. Also used to combat aging and senility. A variety from the USA.

**TR5-5 - Gum Arabic Tree**

Acacia senegal. This small tree is used to make chewing gum and candy. Also used in lozenges for sore throat and for diarrhea and dysentery. The small tree has pale yellow fragrant flowers. The tree can be grown indoors in containers.

**TR27-5 - Hawaiian Lilikoi Fruit Tree (Passion Fruit)**

Passiflora edulis. This seed produces vine type trees that has edible tropical golden passion fruit. When ripe, passion fruit is enjoyed as a fruit, fruit juice, and used in cakes and frostings. A single passion fruit contains only 16 calories. A good source of potassium, iron and vitamins A, C.

**TR25-5 - Hawaiian Papaya Tree**

Carica papaya. Open Pollinated. This tree has edible fruit. When ripe, papaya is enjoyed as a breakfast fruit. As a green fruit, islanders cook papaya in soups and stews. A good source of calcium, sugar, and vitamins A, and C.

**TR6-5 - Macadamia Nut Tree**

Macadamia integrifolia. Open Pollinated. This tree produces excellent yields of Macadamia nuts. The tree has shiny green holly-like foliage and makes an attractive shade tree. Try growing your own Macadamia Nut Tree.

**TR29-5 - Moringa Tree**

Moringa oleifera. Open Pollinated. This tree produces excellent yields of edible slender fruits, commonly known as drumsticks. It is grown for its young seed pods and leaves, used as vegetables, and used as herbal medicine. In the Philippines and Indonesia, it is grown for its leaves, which are used as food. The leaves are the most nutritious part of the plant, being a significant source of Vitamin A, Vitamin B, Vitamin C, Vitamin K, and are high in Beta-Carotene, Manganese, and Protein. The leaves are cooked and used in a similar way as spinach and are dried and crushed into a powder for soups and sauces. The seeds are eaten like peas or roasted like nuts. It is also used for water purification. The fruits are prepared as a culinary vegetable, often cut into shorter lengths and stewed in curries and soups. The taste is similar to asparagus with a hint of green beans. The bark, sap, roots, leaves, seeds, and flowers are used in traditional medicine. It is a fast-growing, drought-resistant tree. It tolerates a wide range of soil conditions but prefers neutral to slightly acidic well-drained, sandy soil. In waterlogged soil, the roots have a tendency to rot. The Moringa is heat tolerant and does not tolerate freezing or frost. Moringa is also drought tolerant. Also known as Drumstick Tree, Horseradish Tree, Ben Oil Tree, and Benzolive Tree. An excellent choice for home gardens, open production, and commercial production. A variety from India.

**TR24-5 - Olive Tree**

Olea europaea. Perennial. Open Pollinated. The tree produces quality olives. The plant has evergreen gray-green leaves and many fragrant flowers. This makes a good ornamental tree. Excellent for school projects. Try growing your own olives! Drought Resistant. Olives are grown commercially in California. A variety from Italy.

**TR21-5 - Pawpaw Tree**

Asimina triloba. Open Pollinated. This tree produces excellent yields of edible Pawpaw fruit that has a banana-like flavor. It has drooping leaves. Requires a sunny location. Excellent for school projects. Kids love them! An excellent choice for home gardens, open production, and commercial production.

**TR4-20 - Peppercorns (Black Pepper)**

Piper nigrum. Perennial. Open Pollinated. The plant produces black peppercorns. Peppercorns are dried and used to make black pepper. You can grow this tropical tree in containers and bring them indoors in the fall. Try growing your own black pepper plant.

**TR30-5 - Star Apple Tree**

Chrysophyllum cainito. Open Pollinated. This tropical tree produces heavy yields of edible 2 to 4" diameter round dark-purple fruit. The skin and rind are not edible. When opening a Star Apple, cut in half and spooned out the flesh. With a combination of chopped Star Apple flesh with Mango, Citrus, Pineapple, other fruits, and coconut water is frozen and served as Jamaica Fruit Salad Ice. It is also used for medicinal uses to soothe inflammation in laryngitis and pneumonia. It is given as a treatment for diabetes mellitus, and as a decoction is gargled to relieve angina. The leaves are used as a cancer remedy. The latex from the tree is applied to abscesses. Also taken as a diuretic, febrifuge, and remedy for dysentery. The wood of the tree is used for heavy building construction used to make furniture and cabinetwork. The Star Apple Tree is a tropical tree that does well only in the warm locations of southern Florida and on the Florida Keys. Trees are seriously injured at 28 F and below temperatures. It was introduced into Ceylon in 1802 and then brought to the Philippines and has become a very common roadside fruit tree. A variety originating from Jamaica.

**TR12-5 - Tea Leaf Tree**

Camellia sinensis. Open Pollinated. This small tree produces green tea leaves. Tea is world's most consumed drink. Young leaves are processed to make tea and green tea beverages. It is used as a medicinal use too. Tea stimulates the central nervous system, is diuretic and astringent, relaxes smooth muscles, and increases coronary flow. It has significant anticancer and antioxidant effects and even has been shown to prevent tooth decay on account of its high fluoride content. Can be grown indoors in containers.
