

Beets

[BT6-50 - Albino Beet Seeds](#)

50 days. Beta vulgaris. Open Pollinated. Albino Beet. The plant produces high yields of very sweet white beets. The beets are very sweet and can grow quite large without becoming bitter. Beets are pure white and will never stain again. This gourmet beet is ideal for boiling, pickling, baking, and freezing. Stores well. An excellent choice for home gardens. An heirloom variety from Holland, Netherlands.

[BT20-50 - Boltardy Beet Seeds](#)

56 days. Beta vulgaris. Open Pollinated. Boltardy Beet. The plant produces good yields of large deep crimson red beets. They are ideal pickled with vinegar or used fresh in salads. Resistant to bolting. This is one of the most popular beet varieties in England. An excellent choice for home gardens. United States Department of Agriculture, PI 612340. A variety from Holland.

[BT13-50 - Bull's Blood Beet Seeds](#)

33 to 58 days. Beta vulgaris. Open Pollinated. Bull's Blood Beets. The plant produces good yields of 2 to 4" diameter sweet dark red beets. It has the reddest foliage of any other beet. The high quality beet can be used as a baby beet or full size beet. Dark reddish purple leaves can be used as an addition to mesclun mixes and salads. Roots are dark red and are perfect for canning. The beets are ideal for boiling, pickling, baking, and freezing. Heat Tolerant. Cold Tolerant. An 1840 heirloom variety from the Netherlands. An excellent choice for home gardens. United States Department of Agriculture, W6 44528.
