

Cauliflower

[CF13-25 - Cheddar Cauliflower Seeds](#)

68 days. Brassica oleracea. (F1) Cheddar Cauliflower. The plant produces excellent yields of 8" heads of orange cauliflower. The color deepens when cooked. It contains 25 times the beta carotene of white varieties! Add color to your salads and gourmet dishes. Holds well in the fields. Prefers moderate to cool temperatures and plenty of water. Do not wrap up leaves, heads should be left open for maximum color. An excellent choice for home gardens and market growers. A variety from the USA.

[CF2-500 - Early Snowball Cauliflower Seeds](#)

60 days. Brassica oleracea. Open Pollinated. Early Snowball Cauliflower. The plant produces good yields of 6 to 8" heads of pure white cauliflower. It is very flavorful, solid, crisp, and tender. Good fresh or steamed. Freezes well. It is a self-blanching variety, but many growers still tie the leaves up and around the head to protect it. Excellent choice for home gardens and market growers. An heirloom variety was introduced to the United States in 1888 by Peter Henderson & Company. United States Department of Agriculture, PI 303134.

[CF16-25 - Graffiti Cauliflower Seeds](#)

80 days. Brassica oleracea. (F1) Graffiti Cauliflower. The plant produces large 7 to 8" heads of bright purple cauliflower. The color is retained when cooked. Great raw, boiled, steamed, or stir-fried. Tip: Adding a few drops of lemon to the water helps prevent color fading when cooked. Add color to your salads and gourmet dishes. Heads need full sunlight to obtain full purple color so no need to wrap heads. A must for any specialty market. An excellent choice for home gardens and market growers.

[CF7-50 - Igloo Cauliflower Seeds](#)

70 days. Brassica oleracea. Open Pollinated. Igloo Cauliflower. The plant produces heavy yields of 5 to 7" heads of white cauliflower. The plant has large dense leaves that shield the solid white heads from frost. Can be harvested early for mini cauliflower. Great variety for freezing. Cold Tolerant. Excellent choice for home gardens. A heirloom variety from the USA.

[CF6-50 - Snow Crown Cauliflower Seeds](#)

[1975 All-America Selections Winner!](#)

50 days. Brassica oleracea. (F1) Snow Crown Cauliflower. This early maturing plant produces heavy yields of 7 to 8" heads of white cauliflower. Terrific quality and is very flavorful. Great fresh or cooked. Leaves grow upright, protecting heads from sun scorch. It matures early and produces heads even under adverse conditions. Top choice of cauliflower growers. An excellent choice for home gardens and market growers. United States Department of Agriculture, G 24611. A variety from the USA.

[CF15-500 - Snowball Self Blanching Cauliflower Seeds](#)

60 days. Brassica oleracea. Open Pollinated. Snowball Self Blanching Cauliflower. The plant produces large 6 to 9" heads of white cauliflower. Great freezing variety. The heads are pure white and the leaves curl upright. The leaves will self-wrap during cool weather, but will not in warm weather. Good for both early and late-season crops. An excellent choice for home gardens and market growers. An heirloom variety. United States Department of Agriculture, PI 225853.

CF8-500 - Snowball Y Improved Cauliflower Seeds

68 days. Brassica oleracea. Open Pollinated. Snowball Y Improved Cauliflower. This early maturing plant produces 6 to 8" heads of pure white cauliflower. A good freezer variety. This is a self-blanching type variety as the leaves curl around heads protecting them from the sun. This cauliflower is known for vigorous and rapid growth and long harvest. It's Suitable for both spring and fall plantings. Frost Tolerant. Excellent choice for home gardens and market growers. An heirloom was introduced by Ferry-Morse Seed Company in 1947. United States Department of Agriculture, NSL 6229.

CF17-25 - Veronica Cauliflower Seeds

78 days. Brassica oleracea. (F1) Veronica Cauliflower. The plant produces 6 to 8" heads of lime green cauliflower. The heads have pointed spiral pinnacles. It is sweeter and milder than other varieties with a nutty taste. Excellent raw, cooked, or pickled. Heat Tolerant. Best if planted in summer for fall harvest. Also known as Veronica Romanesco Cauliflower. An excellent choice for home gardens. Disease Resistant: FW, FY.
