

Peppers (Hot)

[HP2194-10 - Australian Lantern Red Pepper Seeds](#)

90+ days. Capsicum chinense. Open Pollinated. Australian Lantern Red Pepper. The plant produces good yields of $\frac{3}{4}$ " long by $\frac{1}{2}$ " wide hot peppers. Peppers are very hot, have medium-thin flesh, and turn from green, to orange, to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for pickling, salsa, hot sauce, and seasoning spice powder. A variety from Australia.
