

Peppers (Hot)

HP651-10 - Barbados Pepper Seeds

100+ days. Capsicum chinense. Open Pollinated. Barbados Pepper Seeds. The plant produces high yields of 1 ¼" long by 1 ¼" wide wrinkled Habanero hot peppers. Peppers are very hot, have medium thick flesh, and turn from light green, to orange, to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning powder. Also known as Bonney Pepper. A rare variety from Barbados.

HP31-10 - Bishop's Crown Pepper Seeds

90 days. Capsicum annum. Open Pollinated. Bishop's Crown Pepper. The plant produces good yields of 1 ½" long by 3" wide three-sided hot peppers. Peppers are medium hot, have medium thick flesh, and turn from light green, to orange, to red when mature. The plant has green stems, green leaves, and white flowers. Excellent for pickling, and making salsa, hot sauce, and seasoning spice powder. Peppers looks like a Catholic Bishop's Crown. A variety from Barbados. Scoville Heat Units: 15,000.
