

Beets

[BT2-100 - Crosby's Egyptian Beet Seeds](#)

55 days. Beta vulgaris. Open Pollinated. Crosby's Egyptian Beet. The plant produces good yields of 3 to 5" diameter purplish-red beet. Ideal for boiling, pickling, baking, and freezing. This smooth round flat-shaped beet is one of the best beets on the market. Stores well. An excellent choice for home gardens, farmer's markets, and market growers. An 1860s heirloom variety from Germany. United States Department of Agriculture, PI 590617.
