

Peppers (Hot)

[HP1070-10 - Bonda Man Jacques Hot Peppers](#)

100+ days. *Capsicum chinense*. Open Pollinated. The plant produces good yields of 2" long by 1 ¼" wide elongated Habanero hot peppers. Peppers are very hot, have medium-thick flesh, and turn from green to golden yellow when mature. The plant has green stems, green leaves, and white flowers. Excellent for making salsa, hot sauce, and seasoning powder. A variety from Guadelupe. Scoville Heat Units: 314,824.
